Martial Law Is Declared In Lima, Peru And Calloa

ATTEMPT TO TAKE CITY IS REPULSED

Attack Made on Presidential Palace Early Today—Rebels Sent Back

NEWS IS SUPPRESSED

Outbreak Believed to Have Been Attempt to Free Former Pres. Leguia

LIMA, Peru, Feb. 20.—(UP)—Martial law was declared today in Lima and Calloa, Port of Peru, as the government moved to suppress a counter-revolutionary attempt originating at Calloa.

The outbreak was believed to involve an attempt to free the former President Leguia, who is now held in the Panopticon prison in Lima. Leguia passed his 68th birthday in a prison cell yesterday. He is facing charges of maladministration and misuse of vast sums, estimated at \$7,500,000 of government money.

Leguia has been ill since he was imprisoned, but his health was reported improved yesterday.

The attack on the palace occurred at 4 a. m. today but news of it was suppressed by the government.

A proclamation issued by Sanchez Cerro admitted that counter-revolutionary uprising was not yet suppressed.

The proclamation, posted on the street corners in Lima, said the government was determined to suppress the attack which was made "by traitors seeking to disturb the national life and prevent the government's continuance of national reconstruction."

Sanchez Cerro said the initiators of the movement would be punished "and the rebels will be dominated by this afternoon."

The government officially denied reports that there had been any street fighting.

The ministry said the counter-revolutionaries apparently were headed by General Pedro Pablo Martinez, Colonel Cesar Zorilla Lujan and Colonel Victor Bustamante.

Troops from the Lima garrison were sent to Calloa, seven miles from the capital and laid siege to the rebels in the fort.

The capital was comparatively calm.

Some shops in Lima were closed and a few troops were posted at the principal plaza. Banks remained open.

NORTHEAST STORM HITS NEW ENGLAND

BOSTON, Feb. 20.—(UP)—The northeast storm which has battered this section the past two days continued today and was not expected to abate until late tomorrow.

Snow and rain fell over all New England, reaching a peak depth at Crawford Notch, N. H., where 20 inches was recorded.

Heavy seas pounded the coast, leaving ships harbor bound. In Boston the "Lady" Nelson, out of Halifax, was the only steamer to attempt to leave the harbor yesterday. Once outside the "Lady Nelson" was forced to put back to President Roads, where other vessels awaited favorable weather.

Plane and Booze Worth \$1500 Are Captured Today

Following a forced landing when it ran out of gas above the mesa in Trabuco canyon, a two passenger Commandaire airplane and \$1500 worth of Mexican alcohol in 55 gallon cans were captured at 1 p. m. today by Sheriff Logan Jackson and Deputy Sheriffs Ellis and Nickels.

A companion plane, also supposed to have carried alcohol, landed after the first plane's distress signal, picked up the pilot and flew away. The alcohol, carried in the front cockpit of the plane, was brought to the sheriff's office here.

One wheel of the captured plane was broken in the forced landing.

CIRCUS CALLOPE AND JAZZ ORCHESTRA EMPLOYED BY EVANGELIST IN HIS CHURCH

NEW YORK, Feb. 20.—(UP)—Some 35 worshippers at the conservative, dignified old Friends meeting house at 27 Grammercy Park south were wondering today why and how Leon Tucker, a wandering self styled "blought bought" evangelist from California, showed them how to praise Jesus with a saxophone and circus callopes.

Tucker wandered into the pulpit last night with four assistants, set up his night club assortment of jazz instruments, and proceeded with the wierdest service ever witnessed in that staid old meeting house established in 1704 as a bulwark against the moderns.

He remained despite the shock his service wrought, because the friends in the pews made in dignity what may have been lacking in the service.

"Tonight I shall bring the melodies of the night club into the tabernacle," Mr. Tucker told them and he did.

"Jesus can be praised with a callope. And he also can be praised with a saxophone," "My friends, the good book

CAPT. CAMPBELL AND CHAPLIN GIVEN ROUSING RECEPTION BY CITIZENS OF LONDON TODAY

LONDON, Feb. 20.—(UP)—England welcomed home two popular heroes today, one a king of speed and the other the most famous exponent of pantomime, Captain Malcolm Campbell and Charlie Chaplin.

Captain Campbell, who set a world land speed record in his Bluebird racing automobile at Daytona Beach, did not live up to his speed reputation when he arrived at Southampton so late that a banquet in his honor was held without him. It was not Campbell's fault, however, for the liner Mauretania ran aground off West Brumles and remained stuck in the mud for three and a half hours while a reception committee waited at the docks. Six tugs finally re-floated the liner.

Charles Spencer Chaplin disembarked from the Mauretania at Plymouth, glad to reach his native land and get off the liner that had kept him sea sick during the Atlantic crossing. Chaplin received a popular ovation seldom equaled in London.

Chaplin received reporters at the Carlton hotel in the same suite in which Aristotle Briand, French foreign minister, discussed development of the lack thereof, in the London naval conference. Just a year ago, he said that he still was using the same cane and the weird pair of shoes with which he began his career in moving pictures and which have helped him to make millions of cinema goers laugh.

Asked if he kept his shoes in a safe, Chaplin replied, "No, they just lie around the studio."

His questioners wanted to know if he would make talking pictures. "I may do some work in the talks," he confessed, "but not with their present character."

Chaplin said that he had no plans to retire. "Motion pictures are my only pleasure and diversion," he said. He plans to make London his headquarters and to visit various European countries, including Germany, France and Spain with a short excursion into Hungary.

Captain Campbell will receive a knighthood for his record breaking performance at Daytona Beach. A government official boarded the Mauretania and handed Captain Campbell a telegram from Prime Minister Ramsay MacDonald.

"I am glad to inform you that His Majesty has been pleased to approve that a knighthood should be conferred upon you," the telegram said.

Captain Campbell did not get ashore until 10:15 p. m. The crowd of several hundred which greeted him at the docks, included his wife, his mother and the mayor of Southampton.

SAN DIEGO GIRL SOUGHT IN KANSAS

WICHITA, Kan., Feb. 20.—(UP)—Search for Virginia Brooks, 10-year-old San Diego girl, missing from her home since February 11, centered in Kansas today as Wichita police were notified to be on the lookout for her and a 50-year-old man believed to be her kidnaper.

According to messages from the chief of police at Phoenix, Ariz., the child and the old man were traced through Phoenix, and were reported heading through Wichita for the east.

MORE THAN 100 SALVATION ARMY DELEGATES MEET HERE

Conclave Is Opened Here By Officers

Mayor Purinton and President of C. of C. Welcome Visitors

THE MORNING SESSION of the ninth annual Advisory Board Convention of the Orange Belt Division of Salvation Army officers being held today in the Elbell clubhouse was taken up almost entirely by welcoming speeches.

Colonel Albert Widgery opened the session with a prayer, and following him Mayor Frank L. Purinton made a brief speech, welcoming the delegates to the city. W. C. Jerome, president of the chamber of commerce, also made a welcoming speech, inviting the delegates to look over the city while they are here.

The Rev. Harry E. Owings, president of the ministerial association, made a brief welcoming speech on behalf of the ministers of the city.

Brigadier James Dee, commanding officer of the Orange Belt Division of the Army, welcomed the delegates to the convention and made a speech in which he emphasized the needs of the Salvation Army for the coming year.

A response to Brigadier Dee's welcoming speech was made by Colonel Crawford, of San Francisco.

Adjutant C. W. Burr, of San Francisco, addressed the gathering on the duties of the Salvation Army advisory boards.

The main addresses, reports of committees, annual election of officers and other important matters are being taken up at the afternoon session. Dinner will be served at 5:30 in the dining room of the club house.

There were more than 100 delegates at the morning session and as many more are expected to attend the afternoon session. J. G. Mitchell, of Santa Ana, is chairman of the divisional board of five members, as well as general chairman of the convention.

PRICE OF MILK BREAD, MEATS HELD TOO HIGH

WASHINGTON, Feb. 20.—(UP)—A report stating, in effect, that retail prices for bread, milk and meats have not reflected fully the decline in prices paid producers, will be submitted to the senate before the end of the present short session, it was indicated today.

The report is being prepared by the Capper agricultural subcommittee, which yesterday concluded its food price investigation with presentation of a mass of statistics covering meat prices.

Testimony that retail meat prices have not followed closely the reduction of cattle prices was given by F. E. Mollin, secretary of the American Livestock association. He said this was due to a rigid and expensive system of distribution, and explained the cost of distribution had been increased by over expansion due to sharp competition between chain and independent stores.

"Apparently the public is bearing the burden," Chairman Capper commented. "The common theory is that competition is the life of trade."

Capper previously had cited what he termed "disparity of prices" in the milk and bread industry. Pointing to the bread price reductions which had been increased by over expansion due to sharp competition between chain and independent stores.

"Undoubtedly the investigation has been worth while and has done considerable good for the consumer, not only in Washington but elsewhere in the country."

Salesman Called In Investigation Of Finance Scheme

BEVERLY, Ill., Feb. 20.—(UP)—Salesmen who canvassed Belvidere and surrounding farmland to get investors for A. W. Benham's miracle plan of finance were summoned today by State's Attorney A. J. Strom in a new investigation of Benham's mysterious business.

Strom obtained additional funds from the Boone county board of supervisors to engage a closer scrutiny of the 10 to 50 percent dividends Benham paid on loans.

The solicitors worked on a 10 percent commission basis, Strom charged. The rest of the funds were turned over to Benham, who repaid the investors with interest until recently when he announced he had been forced into bankruptcy.

The county grand jury which voted an indictment against Benham charging he operated a confidence game, will be recalled shortly "to consider new evidence," in the case, Strom said.

COOLIDGE MAY GET MILK CZAR OFFICE

SPRINGFIELD, Mass., Feb. 20.—(UP)—Calvin Coolidge may be offered a position as head of the New England dairy industry at a salary nearly three times as large as that which he received as president of the United States.

Such a proposal was made at a conference of some 800 dairymen yesterday by Edward Shattuck, Amherst dairyman, who suggested that the former chief executive be offered the post under a five-year contract. Thus Coolidge's salary, should he accept, would be \$200,000 a year.

Shattuck's idea in putting Coolidge in the position of "milk czar" would be to revive New England's dairy industry. He suggested that each dairyman and farmer in the six states contributes \$5 annually to finance the Coolidge salary.

250 PERSONS POISONED IN SOUTH DAKOTA

Partakers of Auction Sale Lunch Now Fill Hospitals in Four Towns

ELKTON, S. D., Feb. 20.—(UP)—Emergency calls were sent today to physicians in surrounding towns to bring medical aid to 250 persons made seriously ill from ptomaine poisoning caused, it was reported by food served at a farm auction sale lunch.

Physicians said that many of the victims were in agony and that perhaps 20 were in danger of death. Hospitals in Plandreau, Elkton, Brookings and Hendricks, Minn., were filled with sufferers and a check on the condition of all was difficult.

The poisoning was caused, it was said by gasses and steam which came from hot meat in sandwiches packed in airtight containers. The gas could not escape, physicians said, and it caused a germ responsible for the poisoning.

The lunch was served at noon on the Ed Ziebach farm, where the auction was held last Friday. At 2 p. m., many of the patrons at the sale became ill. At first it was believed that the sickness was caused by poison liquor.

Physicians were called and some of the victims left for their homes or for nearby towns to obtain medical aid. As the number of the sufferers increased, it became certain the liquor was not responsible.

For several hours physicians were uncertain about how to treat the mysterious ailment. When the cause was learned they began administering soda bicarbonate and warm water, which was believed to have prevented many persons from becoming more seriously ill.

Most of the persons at the sale were men, but a few women and children from neighboring farms became sick. Mrs. Ziebach was near a nervous collapse today and her two children were sick but Ziebach was not affected.

2 CHILDREN DIE AS FIRE SWEEPS HOME

CHICAGO, Feb. 20.—(UP)—Two children of an almost destitute family were killed early today and the parents and their six other children were hurt, two of them critically, when fire trapped them in their frame home after an explosion.

Only the bravery of the mother, Mrs. Anna Havlicek, 38, and the father, Robert, 39, prevented the entire family from being lost in the flames.

The two children whom firemen found dead in the blazing home were Leonard, 8, and Dorothy, 3.

The father and mother suffered burns and they were almost overcome by smoke before they jumped from a second story window onto a truck which three truck drivers drove near the building.

Divorce Action Of McLean Halted By Restraining Order

WASHINGTON, Feb. 20.—(UP)—Efforts of Edward B. McLean, millionaire publisher and sportsman, to prosecute a divorce action in Cuernavaca, Mexico, were interrupted today by a restraining order obtained by his estranged wife, Mrs. Evelyn Lucille Walsh McLean.

The order was granted by District Supreme Court Justice Adkins after Mrs. McLean's lawyers charged the Mexican suit was instituted to circumvent the local court order directing the publisher to pay \$7500 a month for maintenance of his wife and children.

Mrs. McLean charges failure to pay his maintenance, and asks that her husband be cited for contempt of court.

A hearing on the restraining order has been set for March 2.

British Aviatix Considers Flight To South America

CROYDEN AIRDROME, Eng., Feb. 20.—(UP)—The Hon. Mrs. Victor Bruce, ending her 20,000 mile airplane trip around the world, announced today that she hoped to make a trans-Atlantic flight to South America within the next few weeks.

"I would like to help British aviation by flying to Buenos Aires during the British trade exhibition, which opens March 14," Mrs. Bruce said. "The sea flight involved is only 1250 miles. I would not mind that."

"The flight would require about six days. I would go from London by way of Dakar (Africa) and Rio de Janeiro. I have hopes of borrowing a machine to do it."

WILL ROGERS says:

BEVERLY HILLS, Feb. 20.—[To the Editor of The Register:] You talk about this country being hard up—every place thinks it's worse off than the other. The Red Cross, as usual, is doing heroic work, but it's the people that they never heard of, people that are so far back in the woods that the rest of the world has almost forgotten 'em—those are the ones that I pity in all this depression. I am not speaking of the Senate and Congress of these United States. I want to see Red Cross relief formed so that it will go so far back into the underbrush of the hinterland that it will reach this little known but patriotic group. Then can the Red Cross say: "We have performed our duty."

Yours,

WILL ROGERS.

ORANGE SHOW IS OPENED BY GOV. JAS. ROLPH

Twenty Thousand Persons Pass Through Gates on Opening Night

CAN BERNARDINO, Feb. 20.—(UP)—The formalities of a night opening successfully completed, the twenty-first annual national orange show here today was turned over to an admiring populace for a ten-day exhibition of California citrus culture.

The huge exhibition building, decorated in all the splendor of a Persian garden motif, was thrown open last night to allow 20,000 persons to catch an inaugural glimpse of the citrus display and to hear Gov. James Rolph Jr.'s inaugural remarks.

The numerous booths and elaborate displays of fruits from communities of southern California, conforming to the Persian decoration scheme both in design and brilliant coloring, brought lavish praise from spectators today.

Northern California was represented by a handsome exhibit from Sacramento, also done in the oriental manner. Prizes for the best decorated booths are to be awarded later in the show, which ends March 1.

Today was designated as Latin-American day with a Mexican band and numerous representatives of Latin America as honor guests. Among them was to be Gov. Carlos Trejo Y Lerdo de Tejada of the northern territory of lower California. Among the exhibits was a fine array of Mexican art.

PRESIDENT TO TAKE VACATION AFTER MARCH 4

Chief Executive Also May Make Two or More Addresses Shortly

WASHINGTON, Feb. 20.—(UP)—Arrangements are going forward to enable President Hoover to take a long delayed vacation and to make two or more addresses after congress adjourns March 4.

The speeches probably will be made at the annual meeting of the Republican editors of Indiana at Indianapolis in April and at a gathering of national newspaper editors in New York about the same time. Dates have not yet been set.

The vacation plans are giving the president more difficulty. Three alternatives have been suggested. Mr. Hoover could take a trip to Florida to fish at Long Key for about 10 days. He went there on his last vacation more than a year ago.

He could take a trip across country to his Palo Alto, Calif., home, taking the long automobile venture through the national parks. It has long been his intention to take a national parks tour. Last summer he had the trip definitely scheduled when the necessity for drought relief work in Washington forced what he then called "a postponement until next year."

He could take a long delayed trip down to Texas and the southwest, stopping one way for a visit he has frequently hoped to make at Kansas City.

Senate Takes Action Late at Night and Favors By Vote of 72 to 12

COMPROMISE IS BEATEN

President Not to Pocket Veto Measure But Will Return It He Declares

BULLETIN

WASHINGTON, Feb. 20.—(UP)—Speaker Longworth of the house signed the veterans' loan bill today almost immediately after congress convened. Five minutes later Vice President Curtis affixed his signature to the measure. That was the last formality before transmitting the bill to the White House, where an almost certain veto awaits it.

WASHINGTON, Feb. 20.—(UP)—President Hoover is expected to veto, presumably within the next few days, the veterans' loan bill which passed the senate last night by a vote of 72 to 12.

Senate and house advocates of the measure are confident enough votes to override a veto. The house having voted nine to one for the bill, while the senate's approval was in the ratio of six to one.

The president's cabinet was understood to have advised him this morning concerning the administration attitude toward the measure. While they all declined to discuss the matter, it was indicated the secretaries were virtually unanimous in supporting the stand he has taken against the measure.

At the same time it was made clear at the White House that Mr. Hoover intends to review the bill carefully. The measure will be referred to Secretary of Treasury Mellon and Brigadier General Frank T. Hines, administrator of veterans affairs, for reports. In addition, Mr. Hoover feels that the measure should be granted the fullest possible consideration and therefore it may not be returned to congress for four or five days.

But for early adjournment of the house, the bill might have gone to the president last night. It will be signed today by Speaker Longworth and then dispatched to the White House.

This brief delay, according to Senator Norris, Republican, Nebraska, and others in the senate, (Continued On Page 2)

CARBON MONOXIDE KILLS MRS. DUPONT

WILMINGTON, Del., Feb. 20.—(UP)—Mrs. Eugene E. DuPont, wife of a director of the E. I. DuPont de Nemours company, was found dead by her husband last night in a studio over an old garage on her estate, Bogwood, near here.

Mrs. DuPont apparently was killed by carbon monoxide fumes from her automobile, which she had driven into the garage below and left with the motor running.

She was about 39 years old, and a prominent member of the riding and hunting set. She had many friends in Washington, New York and Philadelphia. Her daughter, Deo, married George Weymouth, of Philadelphia, last September.

Family Arranges Funeral Services For Doomed Killer

WHEELING, W. Va., Feb. 20.—(UP)—Little hope for a stay of execution is entertained by the family of W. Glenn Dague, scheduled to die Monday with Irene Schroeder, the United Press learned today.

After their return from Newcastle last night, Mrs. Dague and Dague's brother began preparations for burial of Dague.

Dague's brother, Frederick, said "Regardless of what Glenn may have done or what he might have been, we want to give him the same kind of a funeral we would give any other member of our family."

Prominent Anaheim Doctor Accused On Narcotic Count

DR. BEEBE IS TAKEN BEFORE JUSTICE COURT

Dr. J. L. Beebe, prominent Anaheim physician and well known member of the Orange county medical profession, was arrested at 5 o'clock last night on five counts of asserted violation of the state poison act.

He was arrested at his offices at 500-501 Bank of America building in Anaheim by Deputy Sheriff Ellis and Nicholson and was taken directly to Justice Kenneth Morrison's court. Instead of the county jail, where Justice Morrison allowed him his freedom on his own recognizance, to appear for a hearing here later.

A warrant for the physician's arrest was issued after a complaint containing the five counts was signed by W. B. Luckenbach, federal narcotic agent, who alleges that during the latter part of last year, beginning on October 13, Dr. Beebe issued 100 quarter grains of morphine sulphate to a drug addict, Charles H. Muller. All five of the counts allege the same amount of narcotics given Muller.

BUILDERS HONORED BY NATIONAL BODY

Five members of the Orange county Builders Exchange had been appointed today on committees of the National Builders' Exchange, by the newly elected president of that body, W. A. Sharp, of Reading, Pa. The Register was informed of the appointments in a telegram from William J. Tway, delegate of the Orange county organization at San Antonio, Texas, where the national convention is being held.

Allison Honer, director of the Orange county body and former president, was named on the ways and means committee. He also was appointed commissioner at large for Southern California. Frederic Sanford, secretary of the Orange county exchange, was selected on the safety and accident prevention committee and also commissioner at large for Southern California. Jules Markel, former president here, was named on the quantity survey committee. O. T. Moore, also a

Calvin Coolidge Says

By CALVIN COOLIDGE

NORTHAMPTON, Mass., Feb. 20.—One of our most beneficial institutions is the town meeting. Each springtime sees it flourish all over rural New England from whence it spread to other parts of the nation. In this region it goes back to the cabin of the Mayflower where before the final landing of the Pilgrims they adopted the compact which was the forerunner of our written constitutions. For more than 20 years the town meeting was the supreme legislative and judicial authority in the Plymouth colony. No more effective instrument for demonstrating the principle of equality and liberty and teaching the art of self government has been devised. When the people of a state who are qualified voters can meet together on a common footing in assemblies of moderate size and there, after due deliberation, choose their own magistrates, impose their own taxes and appropriate their own money they have provided themselves with the firmest foundation of government and the best guarantees of liberty. Such gatherings afford the finest training in the practical elements of citizenship. By placing both the power and responsibility solely in their hands the town meeting demonstrates to the people that this is their country and their government.

Denton Cantrell Arraigned Today

Denton Cantrell, 29, returned to Santa Ana last night from Missouri where he was arrested for the sheriff's office here on a statutory charge, was arraigned in Justice Kenneth Morrison's court today. Bail of \$5000 was demanded, which the prisoner did not make, and his preliminary examination was set for March 1, at 9 a.m. He is charged with an offense against a young Wintersburg girl.

Former president, was appointed on the safety and accident committee. Tway, who also served on the convention resolutions committee, was placed on the reforestation committee.

may give Mr. Hoover the opportunity to exercise his right of "pocket veto." They assert that less than 10 legislative days remain before the close of the present session of congress, explaining that neither March 4 the final day of the session nor the day upon which the bill is sent to the White House, can be counted in such a reckoning.

This development was overshadowed, however, by word from the White House that the president intends to act upon the measure and not to let it die for want of his signature. In the ordinary course of events, the bill would be sent to the treasury for a report as to the desirability of the financial transactions involved. Secretary of the Treasury Mellon, leading opponent of the bill, is almost certain to make an unfavorable report.

Last night's overwhelming approval of the bill came after the senate refused even to engage in a record vote on the administration compromise which had been urged before the senate finance committee by Undersecretary of Treasury Ogden Mills. A bellowing chorus of "noes" rejected this amendment.

Whereas the bill as passed by congress increases the loan value of all World War veterans adjusted service certificates from 22 1/2 to 50 per cent of their matured value, the administration amendment would have restricted the 50 per cent loan privilege to those veterans actually in need.

ROY CLAYTON SENTENCED TO FOLSOM TODAY

One person was sentenced to Folsom prison and three others were given terms of six months each in the Orange county jail as the result of hearings on the criminal calendar before Judge Homer G. Ames in superior court today.

Roy Clayton, who was arraigned on a charge of grand theft in an information filed against him by the office of District Attorney Sam L. Collins, pleaded guilty and received the sentence to Folsom prison after waiving time for pronouncement of judgment. He was charged with stealing the car of Bernard St. Clair, of Laguna Beach.

The county jail sentences were all handed out in connection with granting of requests for probation. They went to a trio charged with uttering forged notes, who previously had entered pleas of guilty to passing travelers' checks with forged signatures. A fourth member of the "gang" which was traveling from Texas and had found a purse with the travelers' checks in Holville, which they were using in Orange county, entered a plea of guilty a week ago and was sentenced to Folsom prison at that time. The three who were before the court today on the charge were Walter Green, Alvin Frazier and his wife, Marjorie Frazier.

Three other informations were filed today, one on a charge of assault with a deadly weapon and two on charges of grand theft. Those on grand theft were directed against Robert Furton and John Pastnick, who it is alleged stole a car owned by T. P. Corcoran of Fullerton, and were apprehended in Phoenix, Ariz. Burton entered a plea of guilty and is to be sentenced next Tuesday morning. The arraignment of Pastnick was continued until the afternoon session of the court.

William D. Gaines pleaded not guilty to the assault charge. His trial was set for March 9. He was arrested in Orange after a fight in the Terminal hotel in Santa Ana on February 10, during which it is alleged he slashed B. F. Elliott with a knife.

Howard Donaldson, charged with issuing a fictitious check in the amount of \$10 on January 26, pleaded guilty in his answer to arraignment, which had been continued from last week and asked for probation. The probation hearing was set for February 27.

Emma McCordia, also charged with issuing a bad check charge, pleaded not guilty and will be tried February 24.

CANTANDO CLUB SINGS BEFORE BIG AUDIENCE

A large crowd which filled the high school auditorium last night for the second concert of the Cantando club, outstanding men's musical organization of the county, was rewarded by an exceptionally fine program under the direction of Leon Eckles.

Guest artist for the occasion was Georgia Stark, Los Angeles soprano, who has won considerable recognition for her finished presentations of difficult numbers. She sang two groups of three songs each, the second group being particularly enjoyed by the enthusiastic audience. The only criticism heard of her singing was that it was somewhat mechanical in a few instances. Her operatic selections showed her aptitude for this type of singing.

The club, numbering 60 voices, was warmly received by the music lovers of the county, who have learned to look forward to the concerts of this organization with pleasurable anticipation. The concert last night was the 12th public appearance of the organization. The nine choruses aroused great applause.

Hugh Rannels, baritone, won approval for his solo work during certain choruses. Accompanist for the occasion was Ruth Andrews.

The next public appearance of the organization will be at a concert sponsored by the Anaheim American Legion next Monday night in the neighboring city. The next regular concert in Santa Ana will be presented next May.

DEATHS

A WORD OF COMFORT

Soldiers have learned that they sustain fatigue better when on an orderly march than when they are struggling. You will quickly discover that you are better able to carry your burdens and to manfully bear your grief when you resist the temptation to draw apart and to repine, and plunge earnestly into your wonted tasks, striving to do your duty well in spite of your heartache. The blessedness of work and of responsibility quickly reveals itself.

NOTED CALLER

Professor Albert Einstein, noted German scientist, who visited Santa Ana last night, is shown below. The originator of the relatively theory came here with Dr. Albert Michelson, who is conducting tests on the speed of light at a mile long vacuum tube on the Irvine ranch four miles south of Santa Ana.

APPARATUS FOR TESTING LIGHT SPEED VISITED

Dr. Albert Einstein, eminent German mathematician and scientist, was the guest of Dr. Albert Michelson, world famous physicist, at the site of the Michelson light speed laboratory on the Irvine ranch, four miles south of Santa Ana last night, when he inspected the apparatus that has been erected for the tests to determine the velocity of light.

Dr. Einstein and his party spent some time at the giant vacuum tube in which a beam of light is to be reflected back and forth by an ingenious system of mirrors over a course of exactly one mile, while Dr. Michelson checks its speed. They examined the mile long tube and its complicated equipment and watched while Dr. Michelson and his assistants made preliminary tests.

In accordance with former requests of Dr. Einstein for receiving his visit as that of an unknown layman, there was no fuss or stir created by his appearance in Santa Ana. He was not accompanied by his wife, and went immediately to the experiment station on his arrival. He returned directly to his Pasadena headquarters after the inspection was concluded. "The tests were not made last night during Dr. Einstein's visit," Dr. Michelson said, "due to the fact that the sun was pretty warm yesterday and the long metal tube had not had time to cool off sufficiently to become equalized, and we didn't wait. We hope to be able to get a check tonight. I plan to stay here until Monday if necessary, but do not expect that Dr. Einstein will return."

"The experiment, like my physical condition since my operation and hospital experience last year, is not getting along as rapidly as I should like, but we are making good progress. There has been no serious set back."

Dr. Francis G. Pease, of the staff of the Mt. Wilson observatory, and Fred Pearson, Dr. Michelson's personal assistant from the University of Chicago, are handling the details of the experiment, getting all in readiness for the actual measurement which is to be conducted by Dr. Michelson as his last great planned contribution to science.

He determined the velocity of light—186,000 miles per second—which is now generally used in science, in a series of experiments conducted in Southern California two years ago, and the present tests are to check under more favorable conditions, the results obtained at that time and to determine with the greatest possible accuracy the speed at which light travels.

The tests will continue over a period of possibly two months when they get started, Dr. Michelson said Wednesday, when he arrived in Santa Ana.

MOTIVE SOUGHT IN KILLING AT LAGUNA BEACH

While Coroner Charles D. Brown this afternoon was delving into the evidence gathered in connection with the murder of Benjamin Wildig, 45, well known Laguna Beach business man, the wound inflicted by his sister, Lillie Chambers Crowe, 47, and the subsequent suicide of their attacker, Alexander Crowe, 66, police officials of the county continued to search for a motive for the tragedy which took place in the Wildig Laguna Beach home at 1:30 a. m. yesterday.

Police authorities admitted that they had found nothing to indicate the cause for Crowe's attack on his estranged wife and her brother, but a partially torn envelope with powder in its crevices was analyzed and the contents found to be strychnine, it was reported. On this theory officers have come to the conclusion that Crowe killed himself with strychnine. The contents of his stomach are being analyzed today to verify the theory, sheriff's officers said.

Coroner Brown is holding the

FINLEY TELLS BOULDER DAM WATER COSTS

Actual figures on the cost of bringing water to Santa Ana from the Boulder dam on the Colorado river were given to members of the Kiwanis club by Col. S. H. Finley at the meeting of the club Wednesday noon in Ketter's cafe. Finley is the representative of Santa Ana in the Metropolitan Water district, and is secretary of the board of directors.

In his speech Colonel Finley said that the cost of bringing the water to Santa Ana would be \$2,000,000. This sum is based on the assessed valuation of the city and is one per cent of the total district cost. There will be available to Santa Ana 15 cubic feet of water per second, which is enough water to cover 11,000 acres of land one foot deep in a year's time and is enough to support an additional population of 75,000 people in the city, the speaker said.

Orange county would bear eight per cent of the total cost of the district, which would be \$16,000,000 if the county should join the district. There would be \$5,000,000 a year of water available and it would flow at the rate of 120 cubic feet per second. This amount of water would be enough to support an additional population of 600,000 people in the county, Col. Finley explained.

The total cost of the project for the Metropolitan Water district is \$200,000,000. There will be 1500 cubic feet of water per second available, which amounts to 1,100,000 acre feet of water a year.

Col. Finley continued his speech, saying that the total size of the stream of water from the Colorado river would be 80x19 feet, flowing at the rate of one foot per second. This would be a stream the same width as Fourth street, 19 feet high.

This same speech was given by Finley to the San Dimas water company yesterday, and as a result, the company passed a resolution appointing a committee to investigate the limits of the Metropolitan Water district and went on record as favoring any movement to join the district.

TOUGH "BREAKS"

Defeated by Ralph Greenleaf by two points in the 1929 tournament, Onofrio Lauri lost another close match in the 1930 pocket billiards championship to Erwin Rudolph by a count of 125 to 124.

AUTO CRASHES INJURE THREE IN 24 HOURS

Three automobile accidents, two in Santa Ana, were reported to authorities during the past 24 hours. Three persons were reported injured in the crashes.

Mrs. M. C. Moore, of 1126 West Sixth street, was reported injured when the car in which she was riding with Mildred Moore collided with a car operated by Miss Jewell Toney, 36, of 825 North Flower street, at Eighth and Baker streets. The accident occurred yesterday.

Joseph Disco, of 904 West Fourth street, reported to the police today that the car he was driving at Fairview and Birch streets today injured a three-year-old boy, Michael Maloney, when the youth ran out in the street. The child ran into the right rear fender of the Disco machine, and Disco reported he did not see the boy at the time. The baby is not believed to have been badly injured.

D. W. Guthrie, of Westminster, was in the Santa Ana Valley hospital today suffering from injuries received when his automobile ran off the road near Westminster at 6 a. m. today and overturned. He was pulled out of the wreckage by passersby and taken to the hospital. His condition is serious.

MARCH 28 SET BY SCOUTS FOR BICYCLE TRIP

Sixty Boy Scouts from Orange county will leave Santa Ana for a bicycle "hike" to San Diego March 28, it was announced today by Lloyd B. Stearns, field executive for the county council, who will be in charge of the trip.

The number of Scouts to go on the trip will be limited to 60, and all Scouts who go will be required to make a physical examination. Only Scouts with a second class rating or better will be allowed to go.

The bicycles will be inspected by

Ray Steadman on Saturday night before the Scouts leave. Steadman also will furnish a mechanic to go on the trip to repair any bicycle that breaks down. This work is to be done without any charge.

There will be two trucks that will accompany the Scouts, one to be furnished by the American Automobile association as an escort, and a cook truck that will carry the provisions. The state motorcycle police will provide an escort through the towns passed on the way to San Diego.

The boys will camp somewhere near Oceanside on their first night out and upon arriving in San Diego they will camp at the Indian Village in Balboa park. While in San Diego they will be the guests of the San Diego Scout council.

This will be the first of a series of outdoor activities planned by the Orange County Scout council.

ANAHEIM MEN INCORPORATE OIL CONCERN

Oil well drilling operations are being conducted on a 2000 acre lease between Coalanga and Paso Robles by a group of Anaheim people, who are hopeful that their well will result in a flow of "black gold." The well site is near Parkfield and is just 12 miles from the famous Kettleman Hills oil fields. The well is now down to a depth of 1000 feet and good showings are being made according to H. C. Kler, of Anaheim, one of those interested in the project.

The W. F. Brown Oil company, limited, has been organized to finance future operations, and a copy of the articles of incorporation, which was filed yesterday with County Clerk J. M. Racks, reveals that it is capitalized for \$200,000. Stock sells at \$1 per share and each of the seven directors listed is reported as owning one share.

Directors are W. F. Brown, H. C. Kler, Herbert H. Oelke, William M. Gregg, Charles E. Harbeson, Job J. Denni and Carl F. Oelke, all of Anaheim. Brown developed the Newhall field, it was reported by Kler. The nearest well to the one being drilled by the Anaheim group is five miles away, although an old well drilled 20 years ago by the Southern Pacific is within 300 feet of their well and water from this well shows considerable oil.

HORTON, BURKE WILL RUN FOR SCHOOL BOARD

The first announcements of candidacy for the Santa Ana board of education were made today by Dr. Roy Horton, present member of the board who seeks re-election, and W. M. Burke, attorney, whose friends have been urging him to take this step in public service. There have been definite announcements from two members of the present board that they would not run, and in the past the other three have been undecided. Dr. Horton is the first of these to announce his decision.

Attorney Burke brings into the race qualifications of business training gained through 20 years practice of the law, together with knowledge and experience as an educator, while Dr. Horton has a background of educational and professional training and intimate knowledge of city school affairs gained through service during two four-year terms on the board.

The two members of the present board who have stated definitely that they would not seek re-election are Dr. John Ball, president of the board, and Herbert Miller. Miller is the only business man on the board, the others all being persons following professional careers. In addition to Dr. Ball and Dr. Horton they are Dr. M. A. Patton and Dr. Mar-

garette Baker, who recently was appointed by the board to serve the unexpired term of Mrs. Clara Wilson, who resigned. Drs. Baker and Patton have not announced whether they will be candidates at the municipal election on April 13.

Positions on the school board do not pay any salary. A request recently was forwarded to the city council asking that salaries of \$25 a month be arranged, but the law provides that in cities of the fifth class, under which Santa Ana is operating, no remuneration may be paid to members of the board of education.

Formal announcements from the two candidates who today are starting their campaigns, are as follows:

Attorney W. M. Burke

"I have been urged by many citizens of the city to allow my name to appear on the ballot as a candidate for the school board. At first, like most busy men, I would not listen to it because of the added burden of time and attention, but, upon careful consideration, I believe it is a duty any good citizen owes the community to assume his share of public service even without any hope of reward except that which comes from the knowledge of a public service rendered.

"As I view it the duties of the school board require two qualifications. A member should be a man of ordinary good business judgment, as a large part of the work of the board is connected with acquiring and dealing with school property and the employment of the personnel of the schools. In the second place a member of the school board should have some knowledge and experience as an educator.

"It is because my friends be-

lieve I have both qualifications they have asked me to sacrifice my own desires and, if elected, give the benefit of these qualifications to the service of the schools.

"For more than twenty-five years I have been an educator in high school, college and university after having received degrees of Bachelor of Arts, and Master of Arts from Oberlin College, Ohio, and Doctor of Philosophy from Columbia University, and I am still an educator for the past fifteen years with the University of California, Extension Division.

"I have practiced law for twenty years.

"There is no more important public function than the education of our citizens. Our children should have the best the community can afford. But it should be accomplished without waste and with the greatest economy consistent with the results to be obtained.

"I pledge myself if elected to the school board to be governed by but one motive—the best interest of the schools regardless of personal desires or personalities. I offer myself and whatever ability and experience I have only that I may be of service to the community."

Dr. Roy Horton

"Feeling that with the coming change in the office of superintendent of city schools it is essential there should be some one on the board familiar with school affairs and fully acquainted with the situation, I wish to announce that I am a candidate for election to the Santa Ana board of education.

"During my two terms of service in the past I have gained experience in school administration and

educational affairs which I believe will be of some service to the school system and to the citizens of this community. Consequently I do not hesitate to ask the voters of the city for their support at the coming election.

"I strongly favor keeping all school improvement work in the city and will do all in my power toward this end in connection with any future construction or improvements.

"Education has interested me all my life and I have attempted to keep abreast with educational problems and advancement. I hold two university degrees—bachelor of arts from the University of California, and Opt. D. from U. S. C.

"Another important angle on public schools to be considered by the public is selecting personnel of the board which will have administration of school affairs, is how much of an interest is felt by the candidate in the welfare and development of the children of the city. My best qualification in that respect is that two of my own children are now students in the city schools. I have a deep personal interest in the welfare of the children of Santa Ana, and in seeing that their interests are safeguarded.

"I am confident that my past record and service in the capacity of a member of the school board will bear the most careful scrutiny and will warrant my return to this post of public service."

Five members of the board are to be chosen at large, representatives from wards not being selected as is the case with members of the city council.

Registration for the election closes March 3, with less than two weeks remaining for those who are not registered to qualify as voters.

HOLDUP CASE ARRESTS ARE MADE IN S. A.

Two Santa Ana youths were arrested here last night and turned over to Los Angeles police authorities as two of three men who held up and robbed a service station near Newhall on February 11, fought a running gun battle with police officers and escaped after their car had been plugged with bullets, with \$27.15 taken from the station operator.

The men arrested were Garfield Starnes, 21, and his brother, Osie Starnes. They were arrested on Dyer road at their home, following a several days' investigation by Chief of Police L. C. Rogers and his detective force.

Rogers was particularly interested in the case, he said, because the bandit car used at the time of the holdup was a car stolen from a Santa Ana street, property of D. W. Ellis, of Santa Ana, Route No. 5. The car was returned here, taken to a local garage, and the bullet holes in the back of it were plugged and repainted.

First reports were to the effect that at least one of the bandits was believed to have been wounded in the running pistol fight, in

that blood was found in the abandoned machine. It developed, however, that the one probably was cut by glass that was shot out by the police officers.

Playing a "hunch" that the bandits may have been Santa Ana residents, Rogers had the service station operator, Jack Nielson, come to Santa Ana and look at scores of pictures in the office of the sheriff's identification bureau. The picture of Garfield Starnes was said to have been picked out by Nielson as one of the men who participated in the holdup and the apparent leader of the three bandits.

A short time later, police officers called at the Starnes home and arrested Starnes and his younger brother. A third boy sought by the officers made good his escape last night. Officers Frank Stein and J. D. Story, of the Los Angeles police department, together with Officers Sid Smithwick, E. E. Perry and C. W. Wolford effected the coup last night which resulted in the arrests.

Men's Styles For Spring Displayed

Modes of spring for 1931 are being displayed in a novel way at Swanberger's store for men. Two complete ensembles on panels in the windows are unique and different than any that have been seen here before. They are featuring the new spring colors of Arab tan and canyon blue, and displaying with them the correct accessories to be worn.

CLAYTON WANTED IN LOS ANGELES

Roy Clayton, arrested in San Diego several days ago for Santa Ana officers on a charge of grand theft, in connection with the theft of a car at Laguna Beach, will face a burglary charge in Los Angeles, after the courts here are through with him, it was announced today.

Clayton was wanted in Los Angeles prior to his arrest in San Diego, according to Herman Zabel, head of the identification bureau of the sheriff's office, who produced a prior record of the man showing that in 1925 he was sent to San Quentin on a burglary charge from Los Angeles.

The names of Paul T. Clark and Ted Wilson also are used by Clayton, his record shows.

LA HABRA

LA HABRA, Feb. 20.—Reports by John T. Knudson and John Sanks, city engineer, on the recent meeting of the disposal board at Anaheim, were given at the meeting of the city council Tuesday night.

Henry Sanks and his attorney, Monte Ficus, announced that they had received a charter for a men's social club for La Habra. The members of the council and the police department were invited

to become members. The club, which is expected to be located on West Central avenue, will be started soon and will contain reading rooms, lounge room, billiard room and card rooms and will provide space for private dances.

A report of the meeting of the Metropolitan Water district board was given by Sanks, who urged that La Habra investigate the proposition fully.

He murmured: "Oh, Pardon Me" ...a hundred times a day...

A HUNDRED times a day he suffered the agonies of embarrassment as his conversation was interrupted by "Pardon Me's," as he turned away to stifle gas. It had been that way for years. No matter what he ate, it caused gas and discomfort. His stomach constantly caused him pain. He could hardly bear the idea of food. He was irritable and nervous—couldn't sleep. A friend suggested Tanlac. He tried it. In a few days the gaseous condition left him. His appetite returned. He began to feel loads better in every way. He slept like a boy.

Stomach gas is not only painful as well as embarrassing but it may be the warning of dangerous stomach troubles. Get rid of it—straighten out the condition that causes it with Tanlac. Few preparations have Tanlac's wonderful record of success in quickly relieving gas discomfort and stomach distress. It has helped thousands and it must help you too, or your druggist will return your money.

Youths Accused Of Stealing Gasoline

Two Huntington Beach youths, asserted to have been caught in the act of stealing gasoline from a county tractor at Midway City last night, were being held in the county jail today charged with petty theft. They were arrested by Special Deputy Sheriff Mutz, of Midway City.

The boys gave the names of James Christie, 21, of 619 Sixteenth street, Huntington Beach, and Dale Potts, 16, of the same address.

Seven Helps In One For Difficult Coughs From Colds

Creomulsion is a better help than any other cough medicine. It combines seven major helps in one, to do the best that men know for any cough from colds.

There is creosote—the world's supreme help—blended, emulsified and palatable. There are white pine tar, wild cherry bark, menthol, ipecac, etc. Each is best for a certain type of cough. But even doctors might disagree on what is best for yours.

So experts have combined in Creomulsion all major helps in one. This to deal with all conditions in a most effective way. No narcotic in it.

Creomulsion is for people who wish to do the utmost. In coughs from colds that hang on it is essential. One dare not trust such coughs to any lesser help. But don't you think that any cough calls for the best help known?

Creomulsion costs a little more than some helps—\$1.25. But your druggist guarantees it. So it costs you nothing if you think it fails to render help that is quick and complete. Careful people, more and more, demand this maximum protection. Use it promptly.

TWO INJURED WHEN AUTOMOBILE SKIDS

A Japanese, A. Esski, of San Diego, and his young daughter suffered injuries in an automobile accident eight miles north of San Juan Capistrano at 10:30 o'clock yesterday morning, when his car skidded on the wet pavement and turned over.

Another machine, containing Mrs. Albert Launer, Mrs. Ralph Irwin and Mrs. F. C. Hezmalhalch, all of Fullerton, was badly damaged when the driver, Mrs. Launer, turned in an embankment to avoid striking the Esski car, but the occupants were not injured.

The car of the Japanese got out of control when the driver applied his brakes on a curve. Esski was going north while the Launer machine was traveling toward Los Angeles.

Dr. Paul Esslinger, of San Juan Capistrano, and Albert Guy, of Dana Point, who drove by shortly after the crash, aided the accident victims, who were brought to the Santa Ana Valley hospital. The girl was not seriously injured but the father suffered several broken bones and lost considerable blood, it was said at the hospital.

Wilshire May Drill Deep Wells In Huntington Beach

SEEK PERMIT FOR OIL GAS RIGHT-OF-WAY

HUNTINGTON BEACH, Feb. 20.—The Wilshire Oil company filed an application for a pipe line construction permit in the office of the city engineer late Thursday afternoon. The right-of-way in the oil field along Westminster and Garfield streets, thence around Reservoir hill and down Twenty-third street to Walnut avenue, and thence to the alley between Walnut and Ocean and to the Wilshire gasoline plant between Eighteenth and Nineteenth on Ocean.

There will be two lines laid along the right-of-way. One will be an eight-inch oil line and the other a four-inch gas line. Work is to start at once. The application for the pipe line permit is looked upon to mean that the Wilshire contemplates deepening some wells in the old field and possibly in the town lot zone. Rumors have been current for some time that the Wilshire would come in here and drill to the deep sand. The entrance of the Wilshire into deep drilling here would be welcomed by oil men and land owners. Wilshire is an independent concern and completes its projects, oil men declared. Wilshire opened the deep sand at Santa Fe Springs and for more than a year local operators and land owners have hoped to see the Wilshire start deep drilling at Huntington Beach.

Tudor Says Beach Beats Royal Home

NEWPORT BEACH, Feb. 20.—Why anybody who can live in California should want the throne of Britain or any other European post is something that puzzles Harry B. Tudor of this city.

Tudor says his grandfather, John M. Tudor, once spent \$5000 on a trip to England to find out what he could about the house of Tudor and if the thing couldn't be re-established in some way.

Tudor became a little reminiscent when he read a press dispatch from London that one Anthony Hall had served notice on King George V that he wishes the king to step off the throne so that he, the said Hall, may step onto it. Hall, according to the dispatches, says he is a descendant of Henry Tudor.

The Baboon Tudor is a scion of the Royal Tudors, but prefers the California climate and the free-and-easy ways of this nation and particularly this part of it to any of the pomp and trappings of monarchies and empires anywhere.

W. R. C. AIDES APPOINTED AT MESA SESSION

COSTA MESA, Feb. 20.—The local W. R. C. met Wednesday afternoon at Greener's hall, the first meeting since the new officers were elected for the year. Mrs. Ida Clark, president, presided.

Mrs. Margaret Long is press correspondent.

The charter was draped in memory of Ida K. Martin, past president of department of California and Nevada.

The local corps planned to present a flag to each of the three rooms of the Mexican school on Placentia street today.

The next meeting, a social, will be held at the home of Mrs. George Teaney on Eighteenth street, on March 4.

TEA OF WOMAN'S CLUB IS SUCCESS

The members of the hostess club were attired in colonial costumes. The president, Mrs. E. L. Johns, wore a charming gown made in 1858. Some old lace was worn by several of the members.

The program was particularly fine, the outstanding feature being a group of vocal solos by Mrs. W. T. Duden, accompanied by Mrs. K. L. Danksin, of Long Beach. Pupils from the C. Sharp studios in Long Beach entertained.

Tea and pie were served, with Mrs. William McOmie and Mrs. E. J. Jones presiding at the tea tables.

Lima Bean Land Being Irrigated

TALBERT, Feb. 20.—Local lima bean growers are irrigating in preparation for the planting of their crops when weather conditions permit and a crop equaling that of the past year is expected to go in to this product in this territory.

As 12 inches of water is needed to safely carry a lima bean crop through to maturity, several inches of water over the amount of rainfall is needed and as there are said to be very few locations where soil conditions allow of irrigation after the beans are up, the busiest season for the grower is at this time.

And the best and easiest way to do this is to follow every meal with three or four tablets of Bismarck Magnesia—a pleasant, harmless, inexpensive, and handy tablet form of Magnesia that promptly neutralizes acidity and keeps your stomach sweet and clean.

A week's trial of Bismarck Magnesia tablets, which any good druggist can supply at trifling cost, should quickly convince you that 30 per cent of ordinary stomach distress is absolutely unnecessary. Be sure to get Bismarck Magnesia Tablets—Adv.

MERGER OF SHOWS BEFORE CHAMBER

ANAHEIM, Feb. 20.—Discussion of the merger of the California Valencia Orange show and the Orange county fair occupied the directors of the Anaheim Chamber of Commerce when they met at the Elks club yesterday noon for their regular weekly meeting.

According to George Reid, secretary of the chamber, the directors are awaiting the reports of the special committee of 12 that was appointed by the 50 representative citizens who met last Tuesday night, before taking any action on the consolidation.

The Anaheim chamber, which is the directory board of the California Valencia Orange show, will hear the reports of the special committee, and if they favor them, they will begin plans for the unified exhibition at once. The committee will make a survey of prominent citizens and organizations in the county and after getting their ideas on the location of the combined show, will make a report to the board of directors of both shows. If both boards approve of the site selected, all will be well, but if either objects, the merger plan will be abandoned, Reid declared today.

SKIN IMPROVED IN 3 DAYS WITH RESINOL

After three days' use of the Resinol treatment I could see an improvement and now I no longer have to be ashamed of my face. All my friends are telling me how good my skin looks." (Signed)—Mrs. Minnie Neff, St. Louis, Mo.

Valencias To Be Planted Near Talbert

TALBERT, Feb. 20.—A new venture in agriculture for the Talbert district is being taken up by John Pope and son, Fred Pope, local ranchers, 10 acres of their land lying north and south of the John Pope residence, to be planted to Valencia orange trees. The land is now being prepared, the trees to be planted in March.

The culture of oranges has been taken up to a limited extent in the vicinity and these trees are growing rapidly. About 50 of the trees were put in last year by Mr. Bushard and he and his brother contemplate going in for orange culture next year.

VIEWS OF SEAL BEACH SOUGHT ON L. A. PLANS

SEAL BEACH, Feb. 20.—C. E. Eaton, Los Angeles county flood control engineer, appeared before the city council last night and requested that the city send a letter to the Los Angeles flood control commission, stating its wishes concerning the proposed purchase and development of the Alamitos peninsula tip by Los Angeles county. Action on the matter has been deferred until a satisfactory arrangement has been made with regard to detailed plans of the enterprise.

J. W. V. Steele, of the Belmont Improvement association, addressed the city council, expressing a desire to see a vehicular bridge constructed across Alamitos bay, connecting Long Beach and Seal Beach.

The R. D. Crenshaw company was authorized by the city council to order necessary forms for the tax collections, which will begin March 2.

DRILL IN DEEP TEST OIL WELL AT 7200 FEET

HUNTINGTON BEACH, Feb. 20.—The McCaslin deep test well is drilling ahead below 7200 feet and is encountering more gas and oil as the well is slowly deepened. Two new boilers have been set on lots near the well to provide additional steam for making the mud heavier if the gas pressure gets too strong. The boilers are set on lots owned by the Standard Oil company.

The Superior Oil company is drilling below 5000 feet on its Gillette No. 7 well, which means that the shallow sands are not being sought and that the Gillette No. 7 will be sent down to the deep sand. The Superior No. 7 well is on the deep sand and a block away. Superior is negotiating for at least one well in the Garfield street area.

George King and associates have brought in a well on their redrill job at Sixteenth and Main. The well is clearing up and looks like a strong pumper, good for around 150 barrels a day. It is producing from the 2300-foot sand.

Tom Powell is undertaking a redrill job at Fourteenth and Main on an Oligocene lease. Standard Oil is drilling ahead on its redrill job on the Jones Community lease in the old field west of the city limits. Standard is also working at Huntington Beach company No. A-33. A crew is also at work on Standard Oil Thompson No. 13 on the Thompson lease on the east side.

RU-MA acts on the blood, stomach, kidneys and liver, and drives the dangerous rheumatic poisons from the system through the natural channels of elimination—it eases pain the first day.

You must use an internal medicine to free the joints and muscles of crippling stiffness, soreness and torturing pain. That's why RU-MA succeeds while external ointments and pain deadening drugs give only temporary relief.

McClay Drug Stores say no doctor what kind of rheumatism you have, or how long you have suffered, try RU-MA—it must completely end all rheumatic agony or you get your money back—Adv.

PUNCTURE PROOF TIRE TUBE SHOWN

A revolutionary development in the nature of a puncture-sealing inner tube for automobile tires is being demonstrated this week in Santa Ana through arrangements made by L. B. Damewood, local manager of Goodrich Silvertown incorporated.

The new tube, known as the "air container," was developed in the Goodrich research laboratory as a contribution to safe motoring. Its use, it is claimed, will reduce automobile accidents caused by tire failure and tire collapse.

The new tube has been subjected to every conceivable test. In Beverly Hills recently six girls drove 100 ten-penny nails into inflated tires equipped with "air containers" without causing a single puncture or a loss of air pressure. This test will be shown in a newsreel on the screen of the Fox West Coast theater here Friday, Saturday and Sunday.

Today at 1:45 p. m. an endurance test to prove the new tube began at the Fox West Coast theater. In this test six ten-penny nails were driven into a tire on a truck which is to be kept in continuous operation until Saturday night at seven o'clock, when the nails will be removed.

When Ben Willey, manager of the Missouri Garage, left his daughter, Ruth, in the Whittier hospital, where she was recovering from an operation, he little realized that within 20 minutes he would be back in the hospital. The Willey car was struck by a speeding machine on Whittier boulevard, and when he came to, he was in the hospital again. He had been thrown from the car and landed on the pavement, sustaining abrasions and contusions on the right side of his head. After gaining consciousness he was able to return home and is again at work at the garage.

COMPTON HIGH DONS COMPETE AS HARD ROW TOMORROW IN ON CINDERPATH POMONA MEET

(This article is the tenth in a series of pre-season track and field views of teams in the Junior College conference and Coast Preparatory league. Compton junior college, lower division, prospects are examined in this installment.—Sport

Harold Lovejoy, former Trojan all-star of note, has a tough row to hoe at Compton junior college this year as he opens his second season as track coach of the lower division Tartars.

Compton has been a back number in Bay league track for a number of years, leading observers to the opinion that the Lovejoy troupe may have to fight its way to Bay league rival—Woodrow Wilson—for cellar honors this season.

The Midway City showed considerable promise recently in taking eight first places out of 12 events to defeat Huntington Park, 1-24. Yet, the Spartans have their weakest team in many years, so that the meet is hardly a criterion of relative power.

Smart Promising Sprinter
Plato Smart, neither Athenian or philosopher, is a promising hurdler. Against the Tartars he won the high hurdle in the tortoise-like pace of 15 seconds, was a close second in 10.4 century dash and leaped feet 9 inches for a second in the high jump. He will be a serious threat in all three events. Another Compton ace is George Boone. He is consistent around 11 feet in the pole vault and is good for at least 100 feet in the discus throw. Lovejoy's star of 16 platter event, however, is his big fellow who was selected All-Coast league center on several

Officially opening the 1931 track season at Santa Ana junior college. Coach Bill Cook and his handful of Don tracksters will join with 200 college athletes of the Southland in producing the first annual Southern California College relay carnival at Pomona college tomorrow afternoon.

The Dons have only been practicing one week but are rounding in shape fairly fast. Art Jacques, who will compete in the high jump, has cleared 6 feet in practice and is topping 5 feet 10 inches consistently. He should place at Pomona in the Jaycee division. Henry Lange and Ellwood Lindley are also entering the high jump.

Melvin Beatty, veteran javelin thrower, has had no practice this year but will make the trip anyway, as will Doyle Gilbert, star Saint broad jumper last year. In the novice 100-yard dash, George Blewitt and Bert Wilkins will run.

Coach Cook will enter three relay events. In the four-man 440 run, he has placed Wilkins, Blewitt, Joe Rodriguez and Lee Dresser. In the four-man 880 are Captain Tom Donahue, Lee Dresser, Ervin Watkins and Bob Durbin, while a feature event of four men running a shuttle 440-yard high hurdle will be entered by Don Dresser, "Truck" Lindsey, Bill Darnley and Paul Bruce.

Tustin Out To Cinch Title Tonight

FARMERS PLAY OILER QUINTET IN BEACH GYM

ORANGE LEAGUE STANDINGS	W.	L.	Pct.
Tustin	4	0	1.000
Excelsior	3	1	.750
Anaheim	3	2	.600
Orange	2	2	.500
Brea-Olinda	2	3	.400
Garden Grove	2	3	.400
San Juan Capistrano	1	4	.200
Huntington Beach	1	4	.200
Newport Harbor	0	6	.000

Tustin's Terrible Tilters, scourge of the Orange league's scorching basketball marathon, deals in some good old-fashioned arithmetic at Huntington Beach tonight. The dope from the feed bucket is that Bill Cole's Farmers will become mathematically-certain champions before the curtain rings.

This dope will be confirmed if the Tilters treat Leon Miner's Oilers as they have all other conference competition. A Tustin victory and nothing can keep the Coleman from the top rung.

Excelsior still has an outside chance to head off the Farmers' stampede toward another championship. Beaten only by Tustin this season, Excelsior can tie for first place if it goes through the rest of its schedule undefeated while Tustin is losing either to Huntington Beach tonight or Brea-Olinda next Friday. Excelsior meets Anaheim at home tonight, and draws a pair of easy games next week—Garden Grove Tuesday and San Juan Capistrano Friday, both away.

Tustin is physically better prepared for Huntington Beach than it has been in weeks and will be heavily favored to score its seventh successive victory of this season and its fifteenth for the past two campaigns. The Farmers won the league championship without a defeat last season, so they haven't known how it feels to lose a game to a member of their own conference since 1929, and they only dropped a couple of games that term.

Ritner Back in Lineup.
Horace Ritner, Cole's giant center, will be back in harness tonight. Illness kept him out of the Anaheim and Orange scrimmages. "Chuck" Ritner and Harold Spangler, both under the weather early this week, returned to practice on Wednesday and are listed for action.

With his full strength intact for the first time in three weeks, Cole probably will employ Ritner at center. "Hen" Thery and Wetzel at forward and Spangler and Harry Holmes at guard. Expecting his toughest brush of the season, he points out that Huntington Beach has never failed to score at least 20 points in any game this season. Although hopelessly out of the running, the Oilers have made every start interesting.

Here's Oilers' Record
their record follows: Huntington Beach 21, Brea-Olinda 22; Huntington Beach 31, San Juan Capistrano 22; Huntington Beach 23, Excelsior 23; Huntington Beach 20, Garden Grove 21 and Huntington Beach 20, Orange 25.

Coach Miner is expected to use Vidal and Maxwell at forward, Brooks at center and Schaffer and Wilson at guard.
Anaheim, eliminated from the race by Tustin last week, is not expected to harass the vastly improved Excelsiors tonight. Garden Grove vs. San Juan Capistrano at San Juan Capistrano rounds out the evening's entertainment. Newport Harbor draws a bye.

Orange and Brea-Olinda jumped the gun on the field by playing their game scheduled on Wednesday evening. Orange won, 35 to 11, completely outclassing the Wildcats five which a few weeks ago was hounding Tustin's conference lead. Orange also won the Class B game, beating Brea-Olinda's previously untamed mid-dies, 32-28.

Mrs. M'Fadden Wins One-Club Golfing Match

Using a No. 3 Iron with versatility, Mrs. Lamont M'Fadden won the class A one-club golf tournament for women at the Santa Ana Country club yesterday. Mrs. Hugh Shields, Mrs. J. K. McDonald and Miss Mary Salsberry all tied for second place.

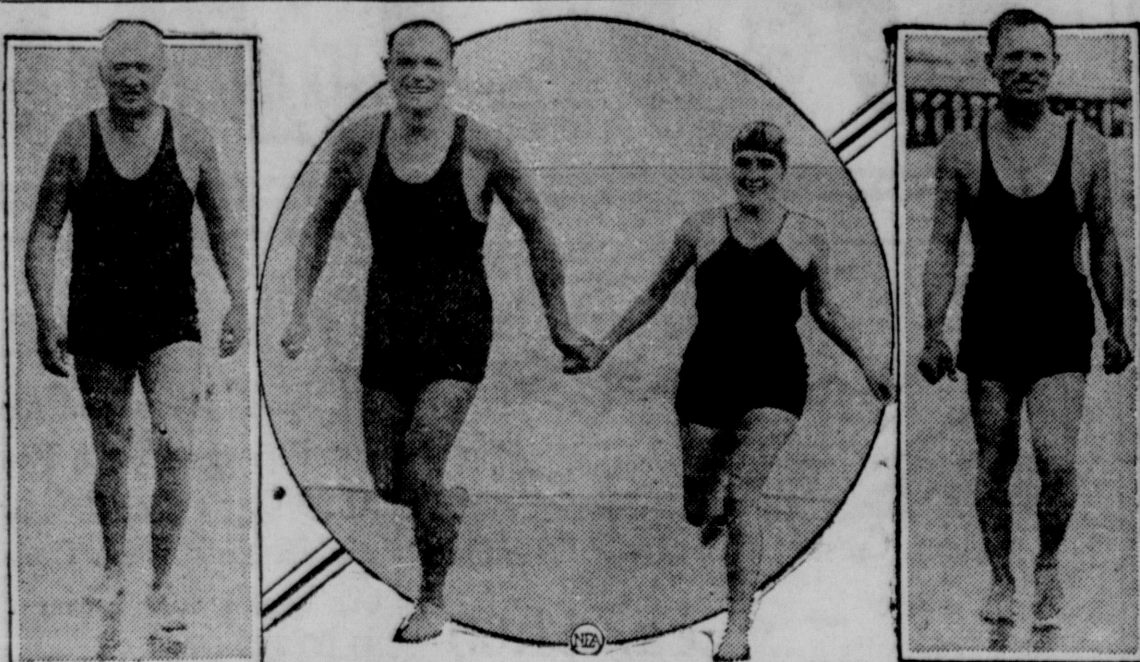

Mrs. E. T. Mather was first in class B mixed bogey play, winning a handsome cup. Mrs. D. W. McClure was second. Mrs. Dan Andrews and Mrs. L. J. Bushard tied for third.

(United Press Staff Correspondent)

SAN FRANCISCO, Feb. 20.—Anybody wanting to risk good hard money that Notre Dame falls short of the national football championship next fall can probably find lots of takers in California.

Several hundred thousand of them have been assured, in Knute Rockne's own peculiar wording, that the Ramblers will repeat. His words were these:

"We will not have a championship team next year; only a fair outfit. We're losing lots of men. The line, I think, will be fairly strong, but I'm afraid of the backfield."

To good Californians these words translated from the original Rockne, mean this:

"Notre Dame will again win the national championship."

Californians last fall made the mistake of believing the truth might be in Notre Dame's old snicker. That mistake will not be made again.

Notre Dame had worn thin, according to gossip, at the far end of a bone-breaking season. Southern California had started slowly, then found its gait, and had molded a machine no team could stop. The slaughter would be so sanguinary as to appause even the blood lust of Southern Californians.

Good Californians began nodding their heads dizzily in agreement. Then Rockne arrived in Los Angeles and confirmed their most delightful fears. The carnage would be terrible, he admitted.

Rockne released today's inadvertent prophecy in the course of an address before the students at the University of California which went out through the state by radio.

Rockne was on record with the statement that Bill Ingram, who is to coach California next season, would please everyone—with the exception of the alumni.

"And no one will please them," remarked Rockne, indicating alumni in general and not Californians in particular.

SHARKEY MUM. LETS MANAGER DO CHATTERING

LOS ANGELES, Feb. 20.—Jack Sharkey, Boston heavyweight champion contender, arrived in Jack Dempsey's home town today to see what could be done about pepping up the fight situation in California.

Sharkey was accompanied by his manager, Johnny Buckley, and Ernie Schaaf, an eastern heavyweight, who recently took Max Baer, California's leading heavy.

Although Sharkey was met by a crew of cheering sailors from San Pedro and was presented with a megaphone and the keys to the city, he was not garrulous. Buckley did most of the talking.

"I doubt if Dempsey ever will fight again," Buckley said. "He told us when we met him in Florida he was afraid of damaging his eyes. He'll never come back as long as Jack is the leading contender."

Buckley said that Sharkey's big ambition was another crack at Max Schmeling who won the world's title when he was fouled by Sharkey.

Schaaf will face "Dynamite" Jackson, Los Angeles Negro, in a 10-round bout next Tuesday at the Olympic. Sharkey will second Schaaf and will stay in California a month or more with Schaaf if the first bout is successful, Buckley said.

CORBETT, WALKER COLLIDE TONIGHT

SAN FRANCISCO, Feb. 20.—Young Corbett of Fresno, recently awarded the synthetic California welterweight title and Paule Walker, hard-hitting New Yorker, will meet tonight for the second time within a month.

The two fought last month in Los Angeles with the bout ending in a draw but this has not prevented Corbett's admirers from installing him as a heavy favorite to win tonight's 10-round affair.

Excelsior Out Of Orange League Sports

The Orange league is the Orange County league now. Every member is located within the confines of this district.

Excelsior, the cross-roads union high school in Los Angeles county that has been in the conference for several years, has withdrawn to take up its old franchise in the San Gabriel Valley loop.

Excelsior will complete its basketball schedule in the Orange league and there is a possibility it may seek re-entry for its football next fall, but for baseball and track Excelsior will be allied with another circuit.

Decision of the Orange league to abandon baseball had much to do with Excelsior's action, it is understood.

HICKS SECTION WINS WILLARD CHAMPIONSHIP

BY JACK WALLACE

As a result of splendid co-operation on the part of the boys, C. Norman Hicks' home room today boasted of being interclass track champion of Frances E. Willard junior high school. The final events, junior and midget hurdles, running broad jump, and pole vault were run off yesterday.

Miss F. Steel's home room ran a close second to the Hicks' team with 47½ points.
Coach Arnold Lund had the juniors and midgeters run the 75 yard hurdles instead of the 60 so as to compare with last year's records. The midget hurdles and broad jump were both won by Guthrie, who made a total of 19 points for his home room.

Point totals for the meet follow:
Hicks, 49; F. Steel, 47½; Biggin, 38; Childers 37; Bennett, 35; Elliott, 35; Mueller, 24½; Maas, 22; Whitaker, 16½; Mathes, 14; Briney, 13; M. Steel, 12; Jacobs, 7; Scott, 6; Libby, 2.

Junior Events
Hurdles—Flood (Bennett) first; Tadiok (F. Steel) second; Flood (Bennett) third; Mercurio (F. Steel) fourth; Baal (Bennett) fifth. Time, 10-3-5 sec.
Broad jump—Smith (Elliott) first; Tadiok (F. Steel) second; Flood (Bennett) third; Riggs (Briney) fourth; Wilde (Jacobs) fifth. Distance, 14 feet, 3 inch.

Pole vault—Hicks (Biggin) first; Tadiok (F. Steel) second; Maurer (Bennett) third; Hlenworth (M. Steel) fourth; Hawkins (F. Steel) fifth. Height, 8 feet.
Midget hurdles—Guthrie (Elliott) first; Curruitt (Bennett) second; Lowe (Mathes) third; Curruitt (Bennett) fourth; Hawkins (F. Steel) fifth. Time 11 sec.
Midget broad jump—Guthrie (Elliott) first; Curruitt (Bennett) second; Lowe (Mathes) third; Curruitt (Bennett) fourth; Hawkins (F. Steel) fifth. Distance, 13 feet, 8 inches.
Midget pole vault—Richards (Biggin) first; Randall (Bennett), Oldham (Biggin) tied for second; Curruitt (Bennett), Hill (Biggin), and Hemphill (Briney) all tied for third. Height, 6 feet, 8 inches.

NEW JOB FOR SCRIBES
The St. Louis Cardinals are the first major league club to have a bona fide publicity director. He is Eugene P. Karst, whose interest in baseball dates back to the time he was a member of the Cardinal "knobhole gang." Karst's duties are named as "to gather information about the various ball clubs in the Cardinal system and make it readily available for the newspapers in the various cities."

Honor Saint Footballers In Assembly

Football luminaries of Santa Ana high school were officially honored in an assembly today when Vice-Principal W. M. Clayton presented monograms and sweaters to 25 varsity players. Coach G. A. ("Tex") Oliver gave a short talk which was followed by the awarding of letters and sweaters to 16 of the major lettermen, and numerals to 10 who earned minor letters. Captain Alvin Reboin, All-Coast league back for three successive years; Harold Pangle, full and halfback, and Don Crumley, halfback, were all given white Arlo sweaters for earning three letters in football. Reboin also is a three-year letterman in track.

The list of major lettermen includes Captain Alvin Reboin, Hideo Higashi, Harold Pangle, Dallas Reichstein, Lawrence Lutz, Joe Preininger, Floyd Blower, Roy Harvey, James Daneri, Fred Bell, Tom Beasley, Gilbert Meisinger, Bill Donahue, Glen Minter, Max Wilson, Don Crumley and Garth Olsen.

Minor lettermen are Miles Norton, Miner Whitford, Lee Hoffmaster, Lynn Chamberlain, Tom Cole, James Lash, Willard Noe, Kent Martin and Andy Utick.

JAYCEE CAGERS END SEASON IN 35-20 VICTORY

Impressively trouncing their arch rivals from Fullerton junior college, Coach Bill Foote's Santa Ana Jaycees Dons ended their basketball season with a ringing 35 to 20 victory before a capacity crowd in Andrews gymnasium last night. The triumph over the Yellow-jackets gave Santa Ana double satisfaction for it marked the first conference game written down in the "Win" column and avenged the 37 to 24 defeat suffered in 1930 from Fullerton. The Santa Anas were "hot" from the very first, at one time leading by a 16 to 2 margin and after that it was just a question of how high the score would mount.

Hal Dunham and Wayne Garlock played a stellar dual role in the first half, accounting for the first 19 points scored by Santa Ana. Dunham was an all-around whirlwind, continually breaking up the passing attack of the Swarm beside dropping 15 points through the mesh. Dunham has been acting captain of the team since Captain Orville Schuchardt left school and has played consistent basketball for two years in a red and black uniform.

Coach Foote's men, largely through the work of Dunham and Garlock, piled up 12 points in rapid fashion after Pickens of Fullerton had broken the ice with a foul shot. Soon the score was 16 to 2 for the Dons but before

OPPOSE WILSON ON CINDERPATH AT LONG BEACH

What is left of the finest track and field team that ever wore the red and white of Santa Ana high school tomorrow afternoon begins where the other left off a year ago after winning Southern California and State championships.

Against the Bruins of Woodrow Wilson, the skeleton of the Saints' "big shot" squad lines up for its first dual meet of a new season, a season that is not apt to find Santa Ana again sitting on top of its interscholastic bandwagon.

The lot of Clyde Patton, Santa Ana's coach, is not an enviable one. The new tutor is carrying on where the eminently successful "Tex" Oliver left off, but where Oliver had super-athletes in Norman Paul and Al Reboin, Patton has no Pauls and no Reboins. He has, as a matter of cold fact, little or nothing in the shape of championship material. And it is no easy task handling a championship team without championship material.

Wilson Weak Too
Patton may find consolation tomorrow in the fact that Woodrow Wilson claims no titular aspirations itself and is not apt to fear a lean season. And the Bruins have had no more time to train than Santa Ana, for while it has been raining here it has been raining in Long Beach, too, so everybody goes to the meet even-though as far as this one meet is concerned.

Jimmy Daneri and Paul Jacques figure to be Santa Ana's outstanding tracksters this spring. Between them they hold three all-time Saint records, and, as Amos and Andy would say, that's somethin'.

Daneri, a strong runner, negotiated the 440 in 51.8-10 seconds on one occasion last season. He is not running the quarter for the present, Patton having shifted him to the 220 yard low hurdles at Daneri's request. Daneri also holds the school record in the discus at 119 feet. He is woefully inconsistent with the Greek toy but should better the mark this season. The shot and the relay will be Daneri's other events. He figures to toss the 12-pound iron close to 45 feet before mid-season and may hit around 43 once in awhile.

Jacques Star in Jump
The third of a line of traditional Santa Ana high jumpers known as the "Jumpy" Jacques', slender Paul Jacques so far has proven himself the best of the trio which also numbers the talented Bob and Al. Paul has a school record of 6 feet, 5-8 inches. When he cleared that figure last year he shattered the oldest mark in the whole Saint category, one that withstood assaults 16 years. Another Paul, tall Paul ("Jumbo") Anderson established the old record of six-feet-even back in 1914 at a state interscholastic meet.

Jacques also will run the high hurdles in dual meets. He dabbled with the race some last year. His best time was about 17 seconds.

A Saint who may develop into the best of the bunch is Allen Kidder, a redhead from Julia Lath-

rop who was a one-man track team in junior high school. Kidder shows promise in the low hurdles and would improve rapidly also in the pole vault and broad jump, events which otherwise may find the Saints weak for the first time in many years. Kidder is likely to do a turn for the relay troupe too.

Expect Much from Doss

Another potential point-snatcher of merit is Doss, a miler. Although of limited experience, Doss shows tremendous possibilities. Coach Patton is banking on him to get down to the 4:40's by the

time the big meets come around. He thinks Doss may prove another Harold Breeding.

Another Harold Breeding

"Porky" Bell, competing as a "B" last year, won a number of races. Right now he shapes up as about the best of the Saint sprinters.

"Toy" Blower, football captain-elect, is good for better than 10 feet in the pole vault. He has a wonderful "pullup" and might possibly do 11:6 before the season is over.

The rest of the Saint athletes have yet to prove their worth. They all are totally inexperienced but more should be known about them after the affair at Long Beach tomorrow. Coach Patton has hopes, but no prospect, of discovering among the group another Paul or Reboin.

DONS CLOSE BASKET SEASON IN VICTORY

(Continued from Page 12)

the half was over, big Archie Carpenter, towering center, contributed nine points and helped swell Fullerton's score to 12. Max Appleby added a foul toss for Santa Ana to leave the count 20 to 12 at the intermission.

Repeating the scoring attack so characteristic of the first few minutes, Santa Ana again forged out at the start of the second half by scoring nine points. Coach Foote then relieved his regulars one by one until the score was 33 to 16 with less than five minutes to go. Fullerton scored its last five points on fouls with both teams offering a rough and tumble fight for the ball.

"Truck" Lindsey, Don Johnson and Melvin Beatty played a large part in Santa Ana's victory because the Fullerton attack was baffled in Don territory by the defensive tactics of these aggressive guards. Max Appleby played well at center. Edwood Lindsey and Emmett Seacord also stood out for Santa Ana. Carpenter was the big noise for Fullerton, although West and Harris put up a good defensive battle.

The lineups:

Santa Ana (35) (20) Fullerton

ALL-STARS BEAT GROCERS IN PRELIMINARY

Expanding a 7 to 4 lead at the half into a 24 to 8 rout at the final gun, the Santa Ana All-Stars had no difficulty subduing Joe's Grocery in a preliminary game.

Leo Gaspar led the All-Star attack with 11 points while Earl Homan, Al Reboin and Russell Sullivan added to the point totals. The Grocers held the former Santa Ana prep athletes fairly even in the first division, but were unable to check a barrage of baskets in the last period.

The lineups:
All-Stars (24) (8) Joe's Grocery
Sullivan (3).....F.....(1) Bramley

TILDEN VANQUISHES KOZELUK WITH EASE

BALTIMORE, Feb. 20. — "Big Bill" Tilden held a two-match to none lead over Karel Kozeluk in their series for the "world's indoor professional championship," as Jack Curley's troupe of salaried court stars moved to Boston today for a third appearance.

Tilden won even more easily last night than in Wednesday's contest at New York. He took the match in straight sets at 6-2, 6-4, 6-1 and satisfied 3000 Baltimore tennis followers that he was complete master of the Czechoslovakian.

S. A. EXCHANGE CLUB GOLFERS TAKE CUP

Santa Ana Exchange club golfers are for the third time in possession of the Lorenz cup, by virtue of their one-sided victory over Newport Beach Exchange club divot-diggers at the Long Beach Country club yesterday.

Santa Ana won three foursomes out of five and by a total of 62 net. The competition was total net medal score and high scores were the order of the day.

Lester Tubbs, president of the Santa Ana club, is scheduled to feel the pinch of hard times next Tuesday when the club meets. Although not in the game himself, he promised to pay the green fees of all club members who won their foursomes. Getting down to a dollar and cents basis, Les is out \$6.

The results:
Frank Ross-Merle Morris, Santa Ana, beat Harry Williamson-Roland Hodgkinson, 11 points; J. N. Taggart-H. P. Harrison, Santa Ana, beat Ray Saunders-George Wilson, 4 points; Gene Hays-Kemper Taylor, Santa Ana, beat Les-Johnell-C. McLeod, 20 points. Total for Santa Ana, 31.
R. L. Patterson-C. F. Crawford, Newport, beat Earl Christensen, 7 points; Charlie Way-Dick Whitson, Newport, beat William R. Smith-J. L. Wehrly, 13 points. Total for Newport, 19.

Compton Outlook In Track Dismal

(Continued from Page 12)

all-star eleven last fall, should be sailing the saucer close to 115 feet before the season is very old. He has a terrific whip.

Three promising hurdlers have been discovered in White, Smart, and Tatum. White appears to be the best of the trio over the lows, with Smart first man over the highs.

Miner and Ainslee are running even for quarter-mile honors. Miner may get down to 53 flat or under when pressed. He coasted home the winner in 54.4 against Huntington Park without being pushed.

The mile finds Phiffer and Chaffee battling for honors. The latter was a prominent Class B star last year, winning nearly every 660 race entered. Chaffee may run the 880 instead. Against Huntington Park he finished second at each distance. Although slight of build, he is very rugged.

Nuzum, a 21-foot broad jumper; Furman, a 10-6 pole vaulter who is extending George Boone; Buster, a strong shot putter who has already hurled the brass ball 43 feet from the toeboard; Felt, the best 220-yard sprinter on the team, although he has not shuddered 24 feet; and Vierra, another dash prospect, complete Compton's list of leading performers.

Track Depression
Compton has been a track depression for the past few years. The golden age of Compton sports that produced such stars as Vic Williams, Cecil Howard, Tom Yancey, Charley Orr and others has passed. Coach Lovejoy started anew last season.

The Tartars will not raise much hub with the old Coast league veterans this year but hopes are high for the future. Boone, Carpenter, Smart and Felt will hold their own with the best of them while Chaffee, Miner, Nuzum, Buster and Phiffer hold high promise of development.

Compton may yet be a Tartar in deed as well as name, but its 1931 possibilities are necessarily limited.

Rockne Moans But None Sympathizes

(Continued from Page 13)

Here is a tentative lineup of the hapless Irish who will have so much trouble next year:

Ends, Mahoney and Post; tackles, Kurth and Culver, the pair that stopped U. S. C. cold as death; guards, Pierce and Green; center and captain, Tommy Yarr, one of the greatest pivot men in the game, called last fall the fastest and most accurate passer west of Ben Ticker; backs: Marchmont Schwartz, who staggers alone under the slightest description of "the best climax runner to play at Notre Dame in six years;" Jaskewich, who looked so much like Carideo against U. S. C. no one knew he had replaced him for four minutes; Nick Lukats, whom Rockne admits, he had been grooming for next year, and a host of fullback reserves led by a big, fast Swede named Michelson.

LUTZE IN HOSPITAL AFTER MAT DEFEAT

BOSTON, Feb. 20.—Nick Lutze, 23, California wrestler, was at city hospital today, suffering concussion of the brain, received in 31 minutes of wrestling with Ed (Don) George, claimant of the world's heavyweight mat championship at Boston arena last night.

The bout was scheduled to be a best two-out-of-three match. After 31 minutes of wrestling, Lutze clamped a double arm lock on George and threw him from the ring. George, however, had locked Lutze's arms and the Californian crashed with George among the spectators at the ropes. George was first back in the ring, and when Lutze staggered in George pinned him to the mat and Lutze became unconscious.

OFFER \$750,000 FOR RING GO ON RIVIERA

NICE, France, Feb. 20.—Edward Mayo, representing J. Frank Gould, was en route to New York today to offer \$750,000 for a world heavyweight championship fight on the Riviera in August.

Gould, American millionaire and owner of several gambling casinos, believes a match between Primo Carner and the Schmeling-Stripling winner would be a good investment to attract patrons to his casinos.

While no major college lost a player through death, football was directly responsible for deaths of 13 players during the 1930 season. Eight victims were high school players.

ASKS JUDGMENT OF \$51,600 IN DAMAGE ACTION

Asserting that he has been damaged in the amount of \$51,600 as a result of injuries received in an automobile crash, Marion Holloway filed suit yesterday in superior court asking judgment of that amount against Ralph Lee and others. The accident happened on October 9, 1930 on the coast highway nine miles north of San Clemente.

Holloway's complaint states that he was a guest in an auto operated by Lee at the time of the crash which was a head on collision with another car, and alleges that Lee was intoxicated at the time and that the accident was due to his negligence.

Injuries listed in the complaint include a basal fracture of the skull, fractured knee cap and severe lacerations and contusions. The plaintiff asks \$50,000 for personal injuries, \$400 for medical attention, and \$1200 for loss of wages for four months while recovering from the effects of his injuries.

The excavating work probably will be finished within a week or 10 days.

Prominent Woman Members Of Military Ball Committee

If any member of Jack Fisher chapter, Disabled American Veterans of the World war, were asked to name those apart from their organization, whose efforts and influence have been of the greatest value in contributing to the success of the annual Military ball by which the chapter creates a welfare fund, choice would fall unhesitatingly on a little group of prominent women of this city. Included in this group would be the six whose pictures are shown here. Mrs. A. G. Flagg (upper left) is prominent in Ebells and Country club affairs, and has assisted the veterans ever since plans for the Military ball were launched by the late Jack Fisher. Mrs. Jack Fisher is shown in the upper center. To her has always been entrusted the responsibility of sending out formal invitations to the prominent men of the state. Mrs. F. E. Coulter, a former Ebells president, has again had charge of entertainment plans of the evening. She and Mrs. Flagg have alternated in entertaining the citizens' committee at meetings for the past three years. Mrs. Harry S. Pickard, (lower left) is president of the Jack Fisher auxiliary, whose members are offering every assistance to the post, specializing in the matter of ticket selling. Mrs. H. H. Reeves, (lower center) chairman of the decorating committee, is known and loved as "Mother" Reeves, by every World War veteran in the county. Mrs. Robert G. Tuthill (lower right) is president of Santa Ana Ebells society, and has served on the citizens committee for two years. Weeks of activity on the part of these and other workers, will culminate tomorrow night when the Disabled Veterans will present their third annual ball in Orange Legion clubhouse. H. O. Rasmussen is commander of the Jack Fisher Chapter.

Blind Bogey Golf Tournament Is Enjoyed

Friendly competition in golf ran high yesterday at Santa Ana Country club when the monthly "Ladies' day" was observed and devotees of classes A, B and C participated in a thrilling blind bogey tournament. The majority of the players represented class B.

With the conclusion of the 18 holes, Mrs. E. T. Mateer was acclaimed as the winner of the silver loving cup, with a total of 136 strokes. As her handicap was 80, her final score was 56. Mrs. B. W. McClure drew second prize, having a total of 131 strokes, with a handicap of 45 and a result of 86. She received two golf balls.

Mrs. Don Andrews and Mrs. L. J. Pushard each received a golf ball for tying for third place. Mrs. Andrews scored 118 with a handicap of 35 and a result of 83. Mrs. Bushard had a total of 127 strokes, a handicap of 40 and a result of 87. The group played the first nine holes in the morning, and at noon enjoyed luncheon in the solarium of the club. They completed the 18 holes in the afternoon. Included in class B players were Mesdames Don Andrews, H. B. Rapp, Walter Vandernast, E. T. Mateer, W. N. Prince, B. W. McClure, H. L. Miller, H. J. Charming Bird Songs Will Entertain Ebells Women

One of the most novel programs ever presented by Santa Ana Ebells society, is promised the members who attend the Monday afternoon session in the clubhouse auditorium, for the program committee has secured Charles Crawford Gorst, known far and wide as "The Bird Man," to give one of his unique and inimitable entertainments.

Members are asked to reserve a talk on aviation, for "The Bird Man" as a title, was not bestowed on Gorst because of an ability to manipulate an airplane, but because he has mastered the songs of more than 200 different kinds of birds, possessing a repertoire of over 800 different bird songs. With this gift at his command he is able to converse with the members of the feathered kingdom in their own language, a gift that is denied the human race in general.

His achievements and experiments read like a book of fairy tales. "I have sung in the silent woods, and started a general chorus," he states. "The brown thrasher has flown to me for a singing contest. The hawk has answered my scream and swooped at me. Like a baby song sparrow, I cried for food, and its fidgety mother brought me a green worm. In the cool twilight of northern woods I have stood beside vine-wound columns under the green arches and sung evening hymns with hermit thrushes. From a high cliff on black autumn nights, I have called to migrating birds and heard circling voices murmur to me, 'Are you there? Come with us!'—and I have longed to go."

Mr. Gorst is recognized as one

of the country's leading naturalists and his accomplishments and lectures have been endorsed by such well-known men as the late John Burroughs, T. Gilbert Pearson, secretary of the National Audubon society, and many others. His purpose in seeking the lecture platform, is to awaken a more general interest in bird life. He has perfected what is said to be a remarkable technique. It is neither singing nor whistling, but is a bird-like note produced in his mouth and broken into a score of tone variations by the action of diaphragm, larynx, soft palate, tongue, teeth and lips. Many have sought to learn the art from him, but it has been impossible to teach it to anyone else.

In his appearances, he illustrates his lecture-recital with large paintings of the birds, his own artistic work, which, flooded with light, are said to offer remarkable studies to add to the educational interest.

In concluding the afternoon, Ebells' Public Affairs committee will entertain at a silver tea as a student loan fund benefit. This tea is an annual affair with the society, and patronage is expected to be enthusiastic as it has been in the past. Mrs. Carl Mock is chairman of the committee whose members include Miss Vanche Etelle Plumb, Mrs. Perry Frederick Schrock, Mrs. John S. Harvey and Miss Jeanette McFadden.

Bright-hued gladioluses and flowering quince decked the rooms, and luncheon was served at an early hour.

The table was prettily appointed, and favors were tiny red hatchets. Red, white and blue napkins were used, and even the cake of the dessert course was decorated with patriotic colors. Afternoon hours were spent in sewing. Mrs. Barnard won the hostess prize for the day.

Santa Anans Return From Vacation In Honolulu

Mr. and Mrs. L. K. Strong have returned to their home at 1715 North Ross street following a three months' visit in Honolulu with their son-in-law and daughter, Mr. and Mrs. W. B. Caldwell. Prior to her marriage Mrs. Caldwell was Miss Alice Strong, and is well known here where she attended high school and junior college.

Mr. and Mrs. Strong were delighted with the climate of the islands, which they describe as "delightfully warm and refreshing." They were very much interested in the Kamehameha school where Mr. Caldwell is head of the mathematics department. This educational institution was started by Miss Bernice Bishop, the last of the Kamehameha dynasty, and has in its possession one-eleventh of all of the island territory. Plans are under way for a \$500,000 chapel to be built in conjunction with the school.

The Santa Anans saw much of the sugar and pineapple industries during their stay on the islands, noting that all of the sugar is shipped to San Francisco to be refined.

Church Societies

First Methodist Church
The Woman's Foreign Missionary society of the First Methodist church held its monthly meeting Wednesday afternoon in the church parlors. The president, Mrs. Guthrie, presided. Mrs. C. L. Steward led the devotionals which were on the subject "Through Templed Doors to the Great Physician." The necessity of prayer was stressed, and the hymn, "I Need Thee Every Hour" was sung.

Mrs. Snudden, the Pacific branch corresponding secretary, was introduced, and gave a splendid address on foreign missions. Her subject was "Is It Worth While?" She talked of the development of Christianity in India, Japan, China and Korea. She asked the question, "Is it right to send money to these countries, and to send noble girls there to carry on the missionary work?" She declared that it is. Mrs. Snudden is well acquainted with conditions in the foreign field for she has toured the countries where 65,000 girls are enrolled in the Christian schools.

A letter was read from the foreign field. An announcement which proved gratifying to all was that reporting that Mrs. McLeod is now convalescent and soon will be able to take her place as an active member of the First Methodist church. For the past two months she has been unable to attend.

Mrs. D. J. Palmer gave an interesting talk, during which she considered "Stewardship" as a three fold outgoing light representing

prayer, personality and possessions. She illustrated her talk with three candles. Mrs. Palmer said that tithing calls for effort and understanding, and 13 women assisted her in demonstrating the stewardship plan. Mrs. Horton Palmer told of the foundation for the birthday plan which is being carried out.

Mrs. Butter and Mrs. Bowman sang "The Lord Is My Shepherd, I Shall Not Want," with Mrs. Weathely at the piano. Members were interested to learn that the society's quota of 13 Sunset shares had been reached.

Patriotic Theme Used
At Bridge Party

Mrs. Earl Neer decorated her home in patriotic colors recently when she entertained members of a desert bridge club in her home at 1336 West Washington avenue.

Baskets of flowers were tied with red, white and blue ribbons, and tables were prettily appointed. At an early hour a session of bridge was in progress, and when tables were checked Mrs. John Turton and Mrs. Louis Bittle were awarded prizes for scoring high and low.

When Sup and Chatter club members met with Mr. and Mrs. Roy Gowdy in their home at 1014 West Camille street recently they found a most tempting dinner awaiting them. The menu was served at the small tables decorated with fragrant freesias.

In the bridge games of the evening Mr. and Mrs. Kenneth Stowe scored high and Mr. and Mrs. Ray Montgomery, low. Special guests were Mr. and Mrs. E. T. Read. Members present, other than Mr. and Mrs. Gowdy were Messrs. Arthur Achey, Kenneth Stowe, John Turton and Ray Montgomery.

Lowell Teachers Are
Guests of Mothers
At Unique Dinner

Teachers of Lowell school were guests at a unique affair Wednesday evening when members of the P. T. A. board of the school entertained in the home of Mrs. R. R. Russick, 1345 South Flower street.

The group of hostesses greeted their guests in colorful house dresses, and immediately provided bright-hued aprons for them to wear during the evening. A chicken dinner was served at the card tables covered with green paper, prettily scalloped. Bouquets of spring flowers rested in glass tumblers, and water was served from a large bucket with an old-fashioned dipper. Tables were appointed with wooden plates and spoons.

Much merriment ensued, and bridge was played as the game of the evening. Handicaps were provided for the losers or winners with the conclusion of each round, and one member found the rubber gloves she was requested to wear for a part of the evening, quite detrimental to her bridge playing. When scores were added it was found that Miss Mildred Mead and Mrs. Juanita Fletcher held high and low scores.

Teachers present were the Misses Mildred Mead, Marlan Stull, Hazel Lazare, Ione Hanson, Grace Bell, Linda Mueller, Ruth Stephenson, and Mesdames Christine Rogers, Catherine Duke, Juanita Fletcher, Marjorie Dudley, Freda McFadden and C. O. Patton. Members present were Mesdames R. R. Russick, Arthur Meyer, Dorothy Griggs, Don Hillyard, James Farren, Geneva Nielsen, J. G. Shonafelt, Roy Gowdy, Percy Gammell, F. G. Guests Enjoy Luncheon
And Tour of County

The joys of touring Europe were recalled on a recent afternoon when Miss Luvicy Carter entertained in her home at 849 North Van Ness avenue. Guests were Mrs. L. S. Hall and Miss Ruth Spencer of Los Angeles, Mrs. M. Ferguson of Ontario, Canada, and Mrs. J. F. Richards of this city. Just five years ago Mrs. Ferguson and Miss Carter toured the continent together.

The hostess served a tempting luncheon at 1 o'clock and used parti-colored sweet peas and fuchsias in carrying out her appointments. After a social time the little group enjoyed an automobile ride through various scenic points of the county. As this is Mrs. Ferguson's first trip to California, she was especially delighted with the orange groves.

Members of the World Study department of the Women's Union of the First Congregational church held a recent meeting with Mrs. William E. Otis in her home at 2226 Victoria drive. Mrs. F. P. Nickey, president, was in charge.

Mrs. Freeman H. Bloodgood read a paper on "The Geography of India," illustrating it with a beautiful map of the country which she drew. Mrs. Mary Bruner gave a worthwhile review of "The People of India." In line with the subject of the day, Mrs. Nickey reminded those present that Mahatma Gandhi is to receive an early answer concerning the demanded relations between Great Britain and India.

With the conclusion of the afternoon Mrs. Elsie Spruance assisted Mrs. Otis in serving delicious refreshments.

O'BRIEN, VODVIL AT
WEST COAST TODAY

Outlaws, cattlemen and a woman combine efforts to tame one man in "Fair Warning," Fox movie outdoor romance adapted from Max Brand's thrilling story, "The Untamed," coming today to the Fox West Coast theater.

George O'Brien portrays the leading role of "Whistlin' Dan Barry," remarkable for his uncanny influence over wild things and his ability to shoot straight.

Louise Huntington enacts the leading feminine role and, with O'Brien, furnishes the love interest. The supporting cast includes Mitchell Harris, Nat Pendleton and George Brent.

But the picture is not all of the entertainment offered at the West Coast theater for the three days beginning today. There are to be five acts of vaudeville which according to Norman Sprowl, Fox theater manager, will be hard to duplicate.

Three Jacks and a Queen is a "hand" of adagio dancers that have never been seen here before; Tilac and Hanley, knockabout comedians Shattuck and Ward, jugglers and Earl Kennedy and company, a musical act, are some of the other acts while Luciana Luca in "Girls Will Be Girls" is said to be one of the stellar acts on the bill.

'DAWN TRAIL' OPENS
WITH BUCK JONES

Walker's State Theater is showing film fare for those that like fast action in "The Dawn Trail," the Columbia western, starring that greatest of all daredevil cowboys—Buck Jones.

Buck is a great favorite with motion picture audiences. It is a reputation he rightfully deserves. There isn't another delineator of "western" roles who can come near him in the performance of daring feats of horsemanship.

This time he is given the opportunity to show what an actor he is too. His part in "The Dawn Trail" is more than an excuse to show off his feats—it has dramatic interest. "The Dawn Trail" is showing tonight and Saturday.

"Sargon is the greatest medicine for making a person well and keeping them well that I ever saw in my life," declared W. F.

W. F. SHOCKLEY
Shockley, 1019 Maple Ave., Los Angeles. "I hadn't been in good health in six years. There was a constant gnawing pain in my stomach; gas would form and I'd develop a severe headache. I was also badly constipated and had no appetite whatever. "Sargon not only got rid of these troubles but has kept me in the best of health ever since. I eat three hearty meals a day now without one bit of distress. "The Sargon Pills corrected the constipation and never once got me the least upset." Sold by Schramm & Johnson, Drugs-Adv.

2 eggs 3/4 cup chopped nuts
1 1/2 cups flour 3/4 pt. whipping cream

STANTON

STANTON, Feb. 20.—Mrs. R. O. Bennett gave a turkey dinner recently in observance of the birthday of her son, G. W. Irwin. Mr. Irwin is manager of the claim department of an insurance company in Los Angeles. Twenty-two of his business associates and friends were in the gathering. Among the guests were George Heinagh, Nicaraguan consul in Long Beach, and his wife; Mr. and Mrs. H. Sells, of Long Beach; Mr. and Mrs. C. K. Bodie and Dr. Francis G. Coffee flavor that tastes like aroma

from a newly opened can!

REAL COFFEE with a REAL coffee thrill

that more than satisfies... it AGREES

No matter whether you boil coffee, or percolate it—you will never know how much more healthful and satisfyingly delicious REAL coffee can be until you drink Ben-Hur Drip, made by the quick, economical drip-filtration method. Coffee that tastes like the aroma from a newly opened can!

The Ben-Hur drip-filtration method FILTERS OUT resinous fats or oils that cause nausea, indigestion, biliousness, sleeplessness. Even tannin is reduced to a negligible minimum by the drip-filtration way of pouring water THROUGH the coffee. Tannin is released when coffee is boiled or percolated ninety seconds or more.

Ben-Hur Drip, made the Ben-Hur way, never varies in flavor and desired "body"—if measurements are alike. Ready to serve when the hot waters drips free from the coffee grounds.

Read these scientific healthful-coffee facts again—then phone your grocer for a pound vacuum can of Ben-Hur Drip and the so-necessary filter papers. With this purchase, the grocer is authorized to give you, FREE, a \$2.00 Ben-Hur Healthful Coffee-maker.

Ben-Hur Drip is the ORIGINAL coffee specially selected and blended for a quick flavor-release characteristic, and has the advantages of every modern perfecting process.

FREE—Fits any Coffee pot Ben-Hur authorizes your grocer to present you with a \$2.00 Ben-Hur Healthful Coffee-maker when you buy a pound of Ben-Hur Drip Coffee and a dollar box of 700 filter papers (a year's supply for the average family). These filter papers are necessary for making the most healthful coffee.

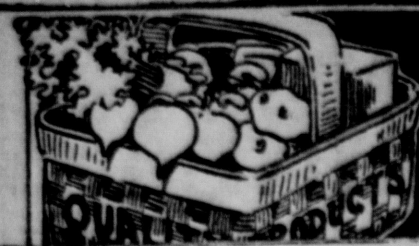

If your grocer cannot supply you with a Healthful Coffee-maker, send \$1.40 to Ben-Hur, 800 Traction Ave., Los Angeles, and we will mail you the complete offer made above.

Ben-Hur Drip Coffee is a So. California Product

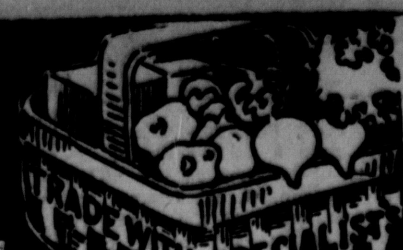

Every penny of the price you pay for Ben-Hur Drip Coffee contributes directly to the buying power of many hundreds of workers, providing through them living comforts for their dependents. It helps support a nearby market for all products grown or manufactured in So. California.

NEW STANDARD IS SET IN PERFECTING FLAVOR OF COFFEE

Roasting Process Used Exclusively by Hills Bros.
Insures Uniformity

For years Hills Bros. have enjoyed a distinct advantage in the coffee roasting industry. For they have a patented roasting process that prevents variation in flavor. The basic principle of the process is roasting "a little at a time." Automatically measured lots of rare blended coffees—about three pounds—are introduced into the roaster in a steady stream and pass along in a continuous flow, roasting a little at a time. The speed of the flow and degree of heat never vary with the result that Hills Bros. Coffee is absolutely uniform.

No other coffee has the same delicious flavor of Hills Bros. Coffee because no other coffee is roasted the same way. This patented process—Controlled Roasting—is radically different from the common bulk-roasting method.

Freshness is assured in Hills Bros. Coffee because it is packed in vacuum cans. By this process, air, which destroys the flavor of coffee, is removed from the can and kept out. Ordinary cans, even if airtight, do not keep coffee fresh. Grocers everywhere sell Hills Bros. Coffee. Ask for it by name and look for the Arab—the trade-mark—on the can.

THE TINYMITES
STORY BY HAL COCHRAN — PICTURES BY KNICK
REG. U. S. PAT. OFF.

The coal the natives lugged aboard the monstrous ship, of course, was stored away down in the lowest part. Said Scouty, "I would like to ask if we can look around and find out where this boat is bound. Perhaps we'll find a place to rest, before another hike."

The Travel Man said, "Come with me. I feel real sure that we will be real welcome." Then they ran right up the gangplank to the deck. Poor Clowny slipped and almost fell, but Scouty grabbed him, which was well. Then Scouty snapped, "Be careful, lad, or you will break your neck."

The captain met them very soon and then he said, "It's nearing noon. Why don't you have some lunch with me? There's plenty for us all." "Oh, we'd be glad to," Coppy cried. And then the whole bunch walked inside. They waited for a little while, then heard the luncheon call.

The captain's table looked just grand. "Oh, gee, I'm glad that we're on hand," said Clowny. "I am hungry and the food looks mighty good." Then they eat down, prepared to eat of things that looked a lovely treat. The captain cried, "Well, sail in, boys." And they ate all they could.

Most of the afternoon they stayed around the ship and gaily played. The captain then said, "Well, my lads, you'll have to go ashore. My ship is sailing out to sea. Some other time, come call on me." The Tynymites then left him, with a merry goodbye roar.

Right near the docks they spied a lad and in his lap it seemed he had a funny looking, great big hat. The lad was weaving it. Some other hate lay near at hand and Clowny grabbed one in his hand and put it on the Travel Man. It was a perfect fit.

Missing Letter Links

RULES:

1. In playing golf on the Missing Letter Links the object is to change one word to another in a given number of strokes which is par. For example, to go from TEE to PIN in three strokes sounds hard but isn't: TEE-TIE-PIE-PIN. It's probably more difficult on a real course.

2. Change but one letter at a time and be sure the word you have used is one in good usage.

3. The order of the letters cannot be changed.

News in the Fields
(Read Luke 2:1-20. Text, Luke 2:10.) Fear
not; for behold, I bring you good tid-
ings of joy.

The good news came first to humble men, not to the proud and the learned. And it came to them in the solitude of their vigil in the fields. Lonely souls, they were where the heavens dig and touch the earth. How unimaginable that this scene should have been cast in the close streets of Jerusalem! There is something for us in this city-dwelling age, to think about. Where people are thickest, there life is apt to be thinnest. Where the noise of the world is loud the "still small voice" is not easily heard. Where the eye is distracted with things the heavenly vision does not break through.

"Peace on the earth, and good-will, to men of gentle and peaceable hearts."
Hear the first music of that far-off, infinite bliss.
PRAYER: O God, who dwellest not in temples made with hands, and who hast stretched out the heavens as a tent to dwell in, we lift our eyes unto the hills, from whence cometh our help. Deliver us from the confusions of men that we may find the peace of God. Amen.

NO EXTRA SESSION

With the compromise reached on the Drought Relief Bill it now looks as if a special session of Congress will not be necessary. We are not of those who believe that Congress in session is a calamity. We are not ready for a dictatorship like that of Russia or Italy. We still have faith in democracy and in a representative government. The impatience with Congress is the impatience of ignorance or selfishness. Between those who are afraid that their pet schemes of exploitation may be aired on the floors of Congress, and the good people who are deceived into thinking that Congress is composed entirely of a group of cheap politicians, the opinion is too general that an extra session of Congress would be a calamity.

This is largely a psychology of despair, and the sooner the people of this country cease to look upon Congress at best as a necessary evil, the sooner will the fear of Congress subside. However, since this fear does exist in the widest circles, it is just as well that the country be treated to a release from Congressional agitation and discussion. The feeling is abroad that a revival of business cannot be looked for until Congress adjourns. The fact that such a feeling does exist makes it wise that this fear be laid. We ought to be near the end of the depression. Stocks of goods are low; in the very nature of things we are long overdue for a revival of business. If there is anything that makes the people timid it ought to be eliminated.

For this reason, and for no other, we hope that there will be no extra session. If conditions arise that make an extra session necessary, we should hope that the President would call Congress together. It is quite conceivable that if the present depression continues, it will be necessary to call Congress together before December to enact remedial measures. Another winter like the present in the industrial world would require remedial measures to save us from unrest among the people who have already suffered much from unemployment.

A NOBLE REACTION

Harold Harmer, seventeen-year-old Canadian youth has discovered that the world is a wonderful place in which to live. A few months ago he was wandering the streets of Los Angeles without a job, having no money and hungry. Then he frustrated a hold-up and was shot through the hand and abdomen by the gunman. Friends sprang up for Harold, one after the other. Two doctors volunteered to remove the bullets, other people came forward to do this thing and that thing for him. Two nurses were provided to take care of him. Monday the bullet which had lodged in his spine was removed, yesterday he was able to be up in a wheel chair. He has a wonderful future to look forward to, a place to rest when he is out of the hospital, some funds so that he need not worry about his poverty, and promises of a job when he is able to handle one.

Many reading his story will think how lucky he is that people have been moved to help him. Possibly some will regard it as a matter of sentiment and accident and publicity. But the high esteem in which Harold Harmer is held goes deeper than that. Here was a boy who, when a crisis confronted him, when he scarcely had time to think reacted in a fine and noble manner. It is as great a test of that young man's character and ability and worth as a citizen as a whole battle of intelligence tests.

People reading and hearing of his story are more than willing to stake their good impulses on the young hero. Some of them are experienced in philanthropy and they are confident that they will not make a mistake by helping such a boy.

IT WAS WORTH IT

Try as we can, we were unable to get indignation over the fact that the Nye Senate campaign funds committee spent more than \$96,000 in nine months. Strenuous efforts have been made to make this look like silly extravagance, but they don't wash very well.

If the Nye committee had done nothing else, it justified its existence and its expenditures by its revelation of the shoddy trick that Nebraska politicians tried to put over on Senator Norris. To bring that bit of skullduggery out into the light of day was worth the whole \$96,000. Do the critics of the committee mean to imply that they would wish that example of political piracy had gone undiscovered?

THE NUMBER RACKET

The gambling instinct is strong in human nature. With some it becomes a profession. With many others it is simply an incident in life. The play of chance makes a great appeal, as every whist and poker enthusiast has learned.

Within the last year a great gambling or lottery system has grown up in this country which has enlisted the patronage of millions. Tickets are sold in factories, in stores, on the street everywhere, on which a series of numbers are printed. At first the numbers were a gamble on the last three figures of the daily United States Treasury balance. It was soon learned, however, that the news of this balance was out before it was published in the newspapers. This naturally gave an unfair advantage to the insiders. The next set of figures taken were the daily figures of the New York Clearing house. When the Clearing House directors learned the use to which their daily statement was put, they discontinued its publication. The next figures taken were the daily share sales of the New York stock exchange. The directors of the Stock Exchange immediately announced the sales to the nearest hundred thousand. This again put the number racketeers to their wits, for a racket cannot be carried on with zeros.

The last resort has been to a wheel of gigantic proportions containing numbers from zero to 999. The dial is to be spun every morning at 11 o'clock. But it is very evident that the racket cannot go on, for only the most gullible are going to stake their chances on a system which everybody knows can be "fixed." So goes the number racket which was enriching thousands of racketeers all over the country, and in which hundreds of thousands of clerks and workers were beginning to be involved. We can understand a personal wager occasionally made between friends, but a professional racket like that which seems to have fallen upon evil days, has little to commend it. Only fools are caught by it.

"GET RESTED AND KEEP RESTED"

An article advertised on the cover of one of the new magazines by the title "Get Rested and Keep Rested" was bound to attract attention. There was just a chance that it might have proved to be a method of adding two hours to each twenty-four. Hope rises eternal. But it didn't. The article is by Dr. Haven Emerson and the subject matter is the prevalent cold, verging on influenza and followed sometimes by a mild case of influenza.

"Get Rested and Keep Rested" is the advice for combating these colds. The four high points, as outlined by Dr. Emerson are: "One or two hours extra sleep or rest in bed each twenty-four. Moderation and simplicity of diet, particularly avoiding an overload of sweets. Avoidance of exposure to those who are sneezing, coughing, or running at nose and eyes, or who have fever. If fever does not abate after twenty-four hours in bed call the physician."

The last paragraph is devoted to the repetition of the advice about rest.

The most effective ways of diminishing the chances of having a cold, or serious results from one, are by immediate daily recovery from daily fatigue, and the use of simple food in moderate amount. Rest is the most powerful general preventive and curative agent we have. Get rested and keep rested throughout this season of colds and grant to others the same precious boon.

A Living Monument
Christian Science Monitor

A refreshing mode has been chosen by the University of Florida, in Gainesville, for celebrating its twenty-fifth anniversary. It has set up an Institute of Inter-American Affairs, designed to be a living monument rather than a mere review of past achievements. This institute, which opened yesterday, is to take the place on the program usually given over on such occasions to historical pageants, the posting of bronze tablets and erection of statues. It is a forward-looking rather than a retrospective celebration.

A wider recognition that now is the time to think and act for the upbuilding of society would bring about more anniversary celebrations of this progressive type. Incidentally, it would wipe out the reproach sometimes attaching to ultraconservative organizations which had their inception in the deeds of revolutionaries. That familiar saying, "The radicals of one generation are the conservatives of the next," would then be less often applicable.

The institute set up by the University of Florida recognizes that the interdependence of the two American continents has imposed many new responsibilities on each of the nations in those continents. As an educational institution looking out across the Caribbean, the university has undertaken to promote a fraternal understanding between the people of North and Latin America. In education, cultural and social fields, it will promote an interchange of ideas, students and mutual studies.

Such an activity, knitting its fabrics of understanding more firmly each year, will build a monument to outlast pageants, marble statues and bronze plaques. This monument will be erected in the minds and hearts of the two peoples.

The Dancing Prince
Riverside Press

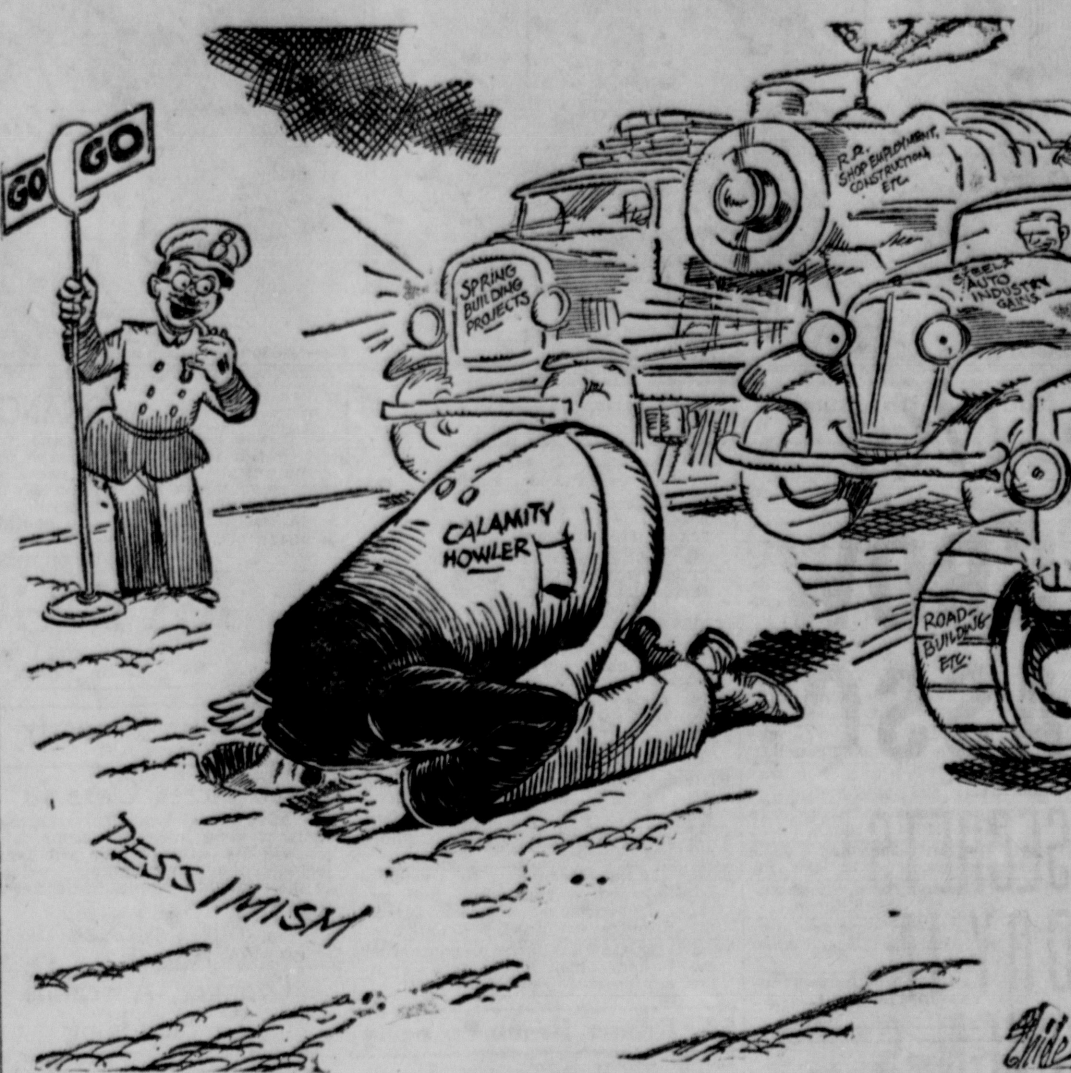

There is some compensation in belonging to the great commonplace. Its members may dance with whom they please and nobody knows or cares.

But every time the Prince of Wales asks a girl for a fox trot or a waltz the fact is broadcast around the world, and the maiden is asked just how it felt to have the manly arm of the heir apparent to the British throne encircle her waist.

Miss Eleanor Nichols, daughter of Naval Commander Newton Lord Nichols, is the latest girl to have been interviewed on the subject. With splendid judgment she told the questioners that the prince is a very likeable, human young man. She enjoyed her dance with him. She probably never even gave a thought to the blazoned heraldry that belongs to a prince's train, and he didn't, either. Being a prince today, except on state occasions, isn't much different than being a banker or lawyer.

Except on the dance floor.

All Right; Everybody! Step on It!

More Truth Than Poetry

By James J. Montague

THUS PERISHES ROMANCE

Though the stout-hearted cowboy remains
To ride through the rough chaparral,
And to warble romantic refrains
About ladies named Molly and Sal,
No longer, through all the West can he find
A spur to ambitious endeavor,
No more can he cope with a sinister mind
For the horse thief has vanished forever.

In the tales I delighted to read
The cowboy had plenty to do,
And his life was a pleasure to lead
For there always were crooks to pursue.
The role that the gunman so skillfully plays
As he lurks in the city's back alleys
Was filled in that early and heroic day
By the horse thief who hid in the valleys.

But no longer the fleet-footed mounts
Promise horse thieves illicit rewards,
For the cowboys all solemnly bounce
Through the bunch grass and sagebrush in Fords.
So now to the eastward they've taken their way
To follow their criminal courses,
As no horse thief's talents can fully display
In a country that's lacking in horses.

POSSIBILITY

In New York it has been suggested that magistrates ought to have longer terms. Some of them, perhaps, are going to get them.

NATURAL ANXIETY

The demand for furs is increasing, which explains the growing nervousness of alley cats.

CARRYING ON

The cowboys are vanishing, but there are plenty of aviators to write about life on the planes.

Turn On the Green Light

By WILLIAM TRUFANT FOSTER and
WADDILL CATCHINGS

Business today is like a traffic jam at the cross roads, with the red light against it.

Long lines of cars are held up. The cars have powerful engines and plenty of fuel. The drivers are eager to go ahead. They can't understand the long delay. They are craning their necks to see the trouble, and asking each other what the matter is.

Presently one of the drivers, losing his patience, honks his horn. Impatience is contagious. All the drivers begin honking their horns. The louder the noise, the greater the impatience. The din becomes terrific.

But it doesn't have the slightest effect on traffic. The red light holds its own, and the cars stay where they are.

All winter the drivers of business have been eager to go ahead. They have had powerful machines and plenty of fuel. They have been craning their necks in every direction to find out what the trouble is. They have been holding one unemployment conference after another. Unemployment conferences are contagious. Everybody has made a lot of noise. Congress has fully done its part.

But all this noise, apparently, has not had the slightest effect on stagnant business. It is still stalled at the cross roads.

The traffic cops are the men who control the supply of bank credit. Trade flows only where credit flows. There is not enough credit in circulation to keep the wheels of business turning.

Business will move forward as soon as the traffic cops turn on the green light.

Thoughts On Modern
Life

By GLENN FRANK

COURAGE AND RECKLESSNESS

It has long been a legend that we are a courageous people. We pride ourselves upon our capacity and willingness to take risks.

But risk-taking is not in itself the infallible test of courage.

Superb courage will often evade than embrace risks, because courage is a by-product of intelligence, and intelligence will not take an unnecessary risk.

There are enough risks that are worth taking without squandering energy and spilling blood on risks that are not worth taking.

We are a risk-taking people! Annually we lose more lives in accidents than the Union Army lost in the entire Civil War.

Annually motor traffic takes more lives than we lost in the entire Revolutionary War.

Now is a time for us to perfect a nice sense of the difference between courage and recklessness.

Recklessness, masquerading as courage, gave us an era of inflation.

The plunger in stocks had a swagger about him that smacked of courage.

With an assertion of superb confidence in the future, he plunged in his purchases, and had something of the daring of the Knight of the Middle Ages about him.

But events have proved that he was simply reckless.

And an era of recklessness is all too likely to bring an era of panic or timidity in its wake.

But after recklessness we need courage!

And courage is compounded of clear thinking, decent caution and confidence in realities.

No sane American can doubt that, with our resources and our managerial genius, the United States will strike its stride again before long.

And as it does, the reckless will be unintelligent plungers and the timid will be stragglers while the man of courage moves forward.

OUR CHILDREN

By ANGELO PATRI

LEAVING THE ROOM

"Leaving the room," is a school-room problem. Handled wisely it becomes no problem at all. Mismanaged it arouses whole neighborhoods, disturbs whole schools, brings class work to a standstill.

I believe that no child should be refused permission to leave the room. He is rather to be taught that it is his duty to go promptly. This is, of course, especially important in the lower grades where the children are so young.

Of course this means a great deal of annoyance to the teacher. It breaks the lessons, distracts the attention of the other children, gives opportunity to the cunning evaders who are not as good at number work or reading, according to the lessons in progress, as they might be. Leaving the room is a way of escape. Nevertheless, no child ought to be refused permission to leave the room if he asks for it.

Training in this particular should begin at home. Health habits should be set early and the child trained so that there will be little or no call for him to interrupt the school session. On the other hand, the school must arrange to give the children of the lower grades an early morning recess. That done there will be little occasion for the interruptions.

Some children will remember this way out of difficulty and ask to go. The teacher must say yes. Then another child, prompted by the first, will ask, and soon the whole group will be asking. The teacher says, "Remember you had recess?" "You are soon going to have recess. If you must go, you must." But the wise teacher keeps a notebook in which she enters the names of all children who leave the room during the session, the

time he left, the time he returned. If the child is out of the room long enough to lose any time, or if his going has cost the class time, the teacher says, "You lost your lesson time this morning. You have to make up that work this afternoon. You cannot lose lessons." By emphasizing the importance of the working time the child has lost, the teacher directs the child thought from the excursion to the job. That is highly important. Work is the motive of school.

The record will soon show the children who are making a habit of leaving the room between times. The teacher makes a report of the number of times, the total time out and asks if the child's physical condition demands this, and if it does, asks for the aid of the family physician. When parents discover that the teacher is not oppressing their child, but doing her best to head the child the right way, they always help. But if a teacher says, "No, you can't go," and the child tells his people so, there is bound to be trouble. And rightly.

Few children will need to go out of the room during a session. If these points have been carefully covered, a program that allows for children's needs. A physical examination that discloses children's peculiarities. Close cooperation between home and school. There is not the slightest need of trouble about the matter. Just a bit of management that any young teacher can master in a morning session.

J. JEFFERSON'S BIRTH

On Feb. 20, 1829, Joseph Jefferson, one of the most famous of American actors, was born at Philadelphia, Pa. He was the third actor of this name in a family of actors and managers.

He made his first stage appearance at the age of three and throughout his early youth he underwent all the hardships connected with theatrical touring in those days.

He was 19 when he made his first pronounced success as Asa Trenchard in "Our American Cousin." This play proved to be the turning point of his career. A year later Jefferson made a dramatic version of Rip Van Winkle and acted it with success at Washington. In 1865 the play was given its permanent form by Don Boucicault in London, where it ran 170 nights with Jefferson in the leading part.

Jefferson was one of the first

to establish the traveling combinations which superseded the old system of local stock companies. He died in 1905.
